

GERMAN REVOLT SUPPRESSED: LEADERS ARRESTED

Barling Bomber May Come to Dixon Meet

EFFORT BEING MADE TO BRING BIG PLANE HERE

Dixon Aviation Meet to
be Greatest Ever Held
in Community

STORES TO CLOSE AT NOON MONDAY

Announcement was made today by the Dixon Chamber of Commerce that stores and banks of the city will close at noon Monday in observance of Armistice Day and also to give everyone an opportunity to attend the opening of the Mid-West Aviation Meet, which will be held at Dixon Aviation Field Monday and Tuesday.

The Mid West Flying meet to be held in Dixon under the auspices of Dixon Post No. 12, American Legion, next Monday and Tuesday promises to be one of the largest and most interesting meets of the kind ever held in the middle west.

Telegrams from all over the country have been received from flyers of note entering their ships for the various events on the program and it is expected that at least twenty-five ships will compete for the prizes offered.

An effort is being made by the committee in charge to have the Barling Bomber, the largest heavier-than-air ship in the world, included in the flight of Army Air Service planes that will attend the meet.

The Kiwanis Club will give a luncheon on Tuesday, at which time Major Schroeder, former ace of the Army flyers, will deliver a talk. Major Schroeder is probably the best known pilot in the United States and is the previous holder of the altitude record of the world, 32,000 feet.

To Enclose Field
The flying field will be enclosed by canvas and parking space provided within the enclosure for cars. The grounds will be thoroughly policed.

There will be seven events on each day's program which will include formation flying, parachute drops, wing walking, bombing contests, landing and taxiing exhibitions, and a grand sham battle in the air. All of the ships will be on exhibition at the field before and after the events and it will be an interesting matter to all people to spend a little time in viewing the progress of the last few years in the comparatively new field of aviation.

Famous Parachute Dropper
Dick Cruickshank, the famous parachute dropper, will be present and will do what is known as a double twist, cutting loose from the first parachute in mid-air after he has dropped from the speeding ship.

Jack Cope, known all over the country for his dare devil wing walking stunts, will perform some of the feats that have made him famous.

Fred Dekor, one of the oldest pilots in the country who has been flying since 1909, and who holds pilot's license No. 72, will be on the field to tell those who are interested of the early experiences of aviators.

Great Stunt Flyer
Tony Yacke, ex-Army aviator, Air Mail pilot who is now a stunt instructor at Chesterbrook field, will appear in the stunt exhibitions.

The Dixon Post will give a big Aviation Ball at Rosbro's Hall Monday night. The hall will be artistically decorated and special stunts will be arranged which will be entirely new to the Dixon people. The music furnished will be the finest obtainable and the committee assures every one of a most enjoyable evening.

Wedding in Mid-Air
The headquarters for the visiting pilots will be the Nachusa Tavern by the courtesy of Manager Butterfield, who has placed his hotel at the service of the Legion for the days of the meet.

Two well known Dixon young people will be married in an airplane during the course of the meet. Their identity is at present a secret, but their names will be the Nachusa Tavern by the courtesy of Manager Butterfield, who has placed his hotel at the service of the Legion for the days of the meet.

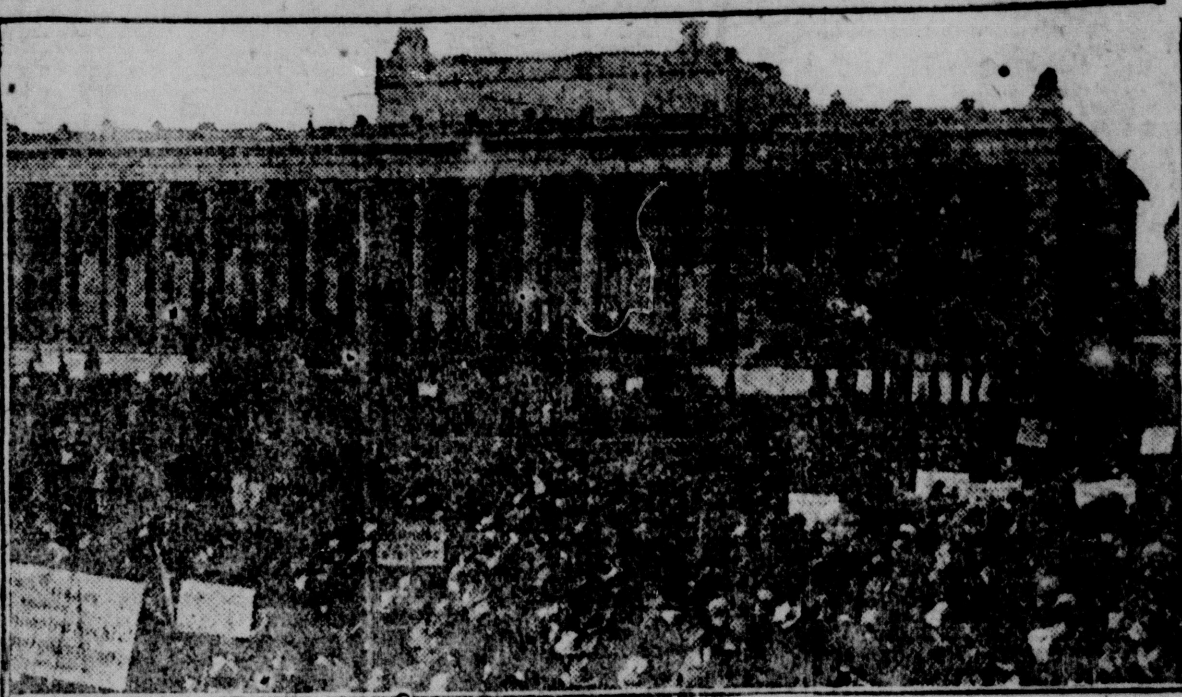

The Y. M. C. A. has offered the privilege of their baths and swimming pool to visiting pilots.

Electricity Expected
to Change Farm Life

By Associated Press Leased Wire
Chicago, Nov. 9.—Electricity may soon transform farm life as it already has altered life in cities, agricultural engineers attending the convention of their national society, developed today during consideration of a rural electrification program.

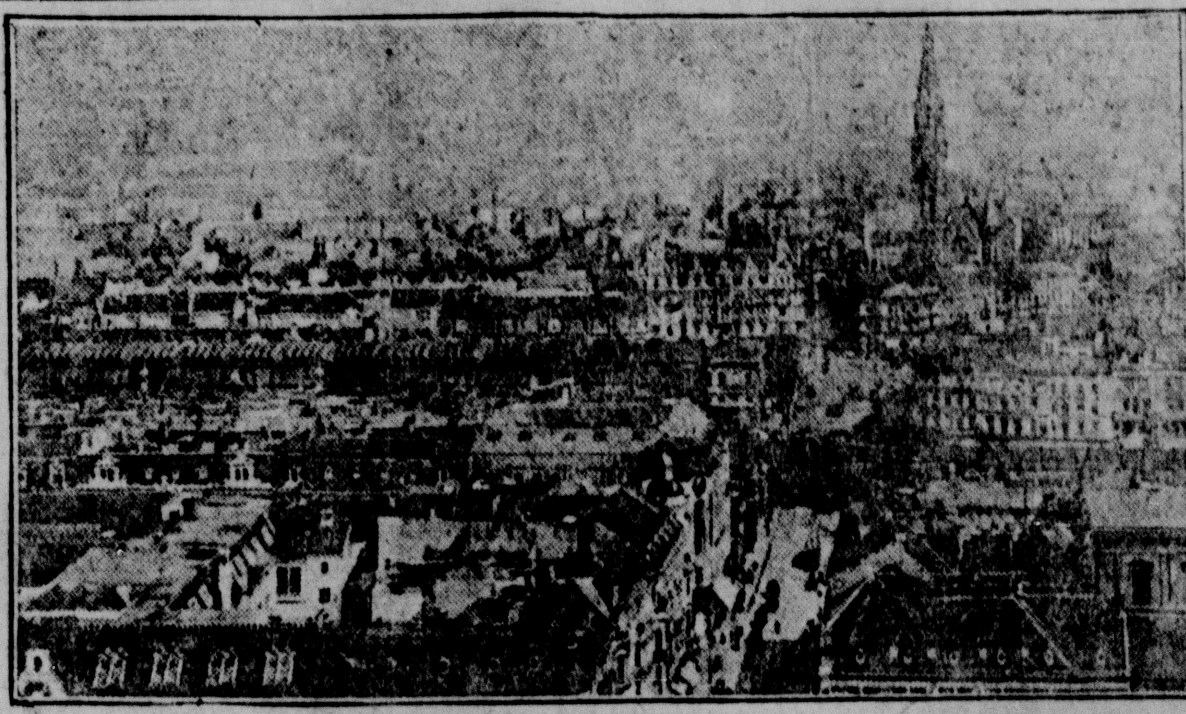

Committee reports and special papers emphasizing the possibilities for using electricity to revolutionize some present farm methods, lightening the work for the farm woman, making more pleasant the chores of the farm hand and reducing production costs. The possibility of getting electric power from the wind was discussed by F. C. Fenton of the Iowa State College.

CROWDS IN BERLIN WATCH PROGRESS OF REVOLT

A picture taken of a crowd gathered at a mass meeting in the Lustgarten in Berlin recently, shows the intense interest with which the people of the German capital watched for news of the revolt.

BERLIN IS STILL CAPITAL OF GERMAN REPUBLIC

Remarkable picture of German capital from airplane. The monarchists under Gen. Ludendorff sought to overthrow the German republic and establish a monarchy and eventually move the capital from Berlin to Munich.

HIS COUP FAILS

GENERAL LUDENDORFF

FATHERS-SONS WEEK PROGRAM IS PREPARED

Dixon Y.M.C.A. Spon-
sors Celebration
of Week Here.

In commending the Father and Son movement, President Coolidge says: "The success of this movement during the past years has won for it a distinct place. Since the movement has become worldwide in character, it is fitting that it center around the date of worldwide significance, Armistice day. Surely the coming generation will need to be constantly reminded of their obligation to help maintain the peace of the world, for which millions of fathers and sons have died in past years."

In Dixon, plans have been completed and next week will be set aside as a time when fathers and sons may be drawn together in a more intimate way. The program for the week will be along the following lines:

Sunday, Armistice and Father and Son Sunday.
Monday, Civic Day.
Tuesday, Home Day.
Wednesday, Church Day.
Thursday, School Day.
Friday, Banquet Day.
Saturday, Recreation Day.
Possibly the biggest feature of the week will be the annual Father and Son banquet on Friday night, outstanding speakers having been secured. Full detailed programs will appear next week. Elmer Rice, Boys Work Secretary of the Y. M. C. A. has charge of the matters for Dixon.

Threatened to Get

Even with Cop; She
Did By Marrying Him

By Associated Press Leased Wire
New York, Nov. 9.—A traffic cop and a motorist whom he caught speeding, were Bermuda bound today when Walter Meyer, six months ago pursued a roadster in Brooklyn. He caught it and handed Miss Margaret Sterber, 22, a summons.

"I'll get even with you," she told Meyer after she had been fined \$25. They were married yesterday.

GREAT RECEPTION FOR ILL. EXECUTIVE

FRANCE INSISTS ON TERMS U. S. HAS REJECTED

Probable Uncle Sam
Will Keep Out of
Coming Confab

Paris, Nov. 9.—(By The Associated Press.)—To what extent the attitude of France has blocked plans for American participation in the reparations discussion is a question which the American government apparently is not yet prepared to answer.

Formed of the Paris semi-official announcement as he was leaving a long session of the cabinet, Secretary Hughes expressed surprise but declined to comment.

In his last talk with Ambassador Jusserand Mr. Hughes asked several questions as to details of the French attitude and it was agreed that for the present there would be no public announcement. The Secretary said today he had received a reply to his queries and it was learned at the French embassy that none had come from Paris. After he left the White House, Secretary Hughes took immediate steps to ascertain the purport of the pronouncement.

EXPECT U. S. REFUSAL

Paris, Nov. 9.—(By The Associated Press.)—The fact that the French Ambassador to the United States, M. Jusserand, has requested a delay in publication of Secretary Hughes' declaration regarding the proposed expert inquiry into reparations, is taken here as indicating that the United States will decline to participate in the committee. Chances of the committee being organized, consequently are regarded as the slightest.

WASHINGTON MARKS TIME

Washington, Nov. 9.—While Ambassador Jusserand was understood to be awaiting further advice from his government apparently needed to give to Washington officials a more definite understanding of the limitations it would place on the proposed expert inquiry into reparations, the situation here today continued to mark time. It was said authoritatively that there had been no change since the French ambassador left the state department Wednesday after his second call on Secretary Hughes.

A conference between Secretary Hughes and Ambassador Jusserand was arranged for 4 p. m., and it was announced Mr. Hughes would receive the newspaper correspondents at 5 p. m.

It was learned that the cabinet had discussed the reparations situation including the French attitude in demanding a limited expert inquiry, and the American position that such an inquiry would be useless.

The view was maintained by Sec-

EXPECT YEOMEN TO LOCATE BIG HOME NEXT WEEK

Board of Directors to
Meet in Des Moines
to Pick Site.

By Associated Press Leased Wire
Des Moines, Iowa, Nov. 9.—The site of a new \$10,000,000 orphan's home to be constructed by the Brotherhood of American Yeomen in the middle west probably will be chosen at a meeting of the executive board of the order here next week. It was announced today. The board meets Nov. 13 and will be in session four days.

Six sites are receiving serious consideration, members of the board said today. One site is adjacent to St. Louis, another at Eau Claire, Wis., others at Des Moines and Fort Dodge, Iowa, a fifth between Iowa City and Cedar Rapids, and the sixth either at Peoria or Dixon, Ill., Chippewa Falls, Wis., also is working actively for consideration.

If reports on all the sites are ready for presentation at the board meeting next week, there should be nothing to delay the making of a final choice, board members said.

On Trial for Alleged Receipt of Property Stolen from U. A. A.

By Associated Press Leased Wire
Freeport, Ill., Nov. 9.—The case of J. C. Krause and Jesse Fallon of Beloit, Wisconsin, who went on trial in federal court here yesterday on a charge of receiving stolen property was expected to go to the jury today. The men, who run a garage at Beloit, are charged with receiving about \$900 worth of stolen property from Camp Grant in January 1921.

George Schroeder of Rockford, Illinois, who is defendant in a similar case testified for the government, saying he received the blankets from two soldiers at Camp Grant, William Thompson and William Stultz, who he said, took the blankets from Camp Thompson corroborated this testimony.

Klan Defeated in Memphis Election

By Associated Press Leased Wire
Memphis, Tenn., Nov. 9.—The Ku Klux Klan was defeated in yesterday's municipal election when the city commission, including the mayor and four commissioners was returned to power.

Mayor Rowlett Paine was re-elected with a majority of approximately 2,500. W. J. Wood, endorsed by the Klan ran second while L. T. Fitzhugh an opponent of the Klan trailed.

Zev Set New Turf Mark with Winnings

By Associated Press Leased Wire
New York, Nov. 9.—Zev has set a new American turf mark in winning up his three year old racing career by bringing the year's total winnings of the Kancon stable of Harry F. Sinclair to \$339,024. This breaks all American records for amounts won by an American stable in a single year.

Secretary Hughes in the cabinet discussions, that it would be merely attempting to do a futile thing for the government to approve any plan for participation by American nationals in an expert inquiry to be held under the French limitations.

ROAD GOVERNOR

GOV. LEN SMALL

Illinois' Chief Executive who spoke to a large crowd at Tampico yesterday. Many Dixon people heard him.

Just Off the Wire From Here and There

By Associated Press Leased Wire
RACINE, WIS.—Rotary International paid a tribute to Paul P. Harris of Chicago, founder of Rotary, when a bronze tablet, set in a stone background was dedicated to him.

NEW YORK.—Multiplication of American business houses abroad to import American goods brought to them in American ships, is necessary to build up the American merchant marine, Secretary Hoover told the American Marine Congress.

PARIS.—General Pershing inspected the cemetery where American soldiers are buried and it is understood he intends to report to the Secretary of War he found them in excellent condition.

GREENVILLE, S. C.—Instability of government in Europe arising from America's refusal to ratify the Versailles treaty and help in the rebuilding of the old world following the late war, is the chief basis of the world's ills, Senator Oscar W. Underwood, candidate for the democratic nomination for the presidency, said in an address.

Claude Brown of Princeton, and A. W. Shelton, Director of Registration (Continued on Page 10)

Origin of Shocks in Los Angeles Uncertain

By Associated Press Leased Wire
Los Angeles, Nov. 9.—Whether a series of shocks felt last night by residents of Los Angeles, Pasadena, Monterey and Alhambra were the rumblings of a genuine, though harmless, earthquake or the result of night firing practice aboard ships of the battle fleet fifty miles away, is expected to be determined today by a report from the seismograph station at Mount Wilson Observatory.

Whatever their origin the shocks were unaccompanied by damage or casualties.

GOV. SMALL REVIEWS WORK IN HIS SPEECH

Answers Critics With
Facts About State
Road Program

Governor Len Small was given a remarkably enthusiastic reception yesterday at the road celebration in Tampico, when townspeople and visitors from Whiteside and neighboring counties jammed the big amphitheater to overflowing and hundreds were unable to gain admittance to hear him speak.

The occasion was the dedication of Tampico's new stretch of concrete road, built by state aid, running four miles north of the village.

Governor Small, Col. C. R. Miller, Director of Public Works and Buildings; Leslie Small, Col. Jack Inglish, A. W. Shelton, Director of the department of Registration and Education, and other state officials were in the party, which arrived in Tampico at noon by automobile.

A luncheon was served by the Tampico Road Club, a live organization of Tampico men who are interested in getting good roads for their community and are also housing for the proposed one hundred million dollar road bond issue. Governor Small was guest of honor at the luncheon and after the meal had been served several men were called upon for remarks.

Judge Crabtree Spoke
Judge John E. Crabtree of Dixon spoke for Lee County, praising the work of Governor Small in the development of the roads of Illinois. Others heard from were from Henry, Bureau, Carroll and Whiteside Counties.

At the close of the luncheon meeting the entire assemblage marched to the big township high school building, where seating arrangements had been made for several thousand in the gymnasium. The hall was overflowed and not even standing room was available after the afternoon meeting started.

The program was in charge of G. J. Sherman, President of the Tampico Road Club. Members of the legislative body who were present were first called upon and talks were made by Rep. Henry Allen of Lyndon, Sen. H. G. Wright of DeKalb and Rep. John Evers of Dixon and Rep. Frank W. Morrissey of Bureau County.

Foreign Exchange Takes Big Tumble

By Associated Press Leased Wire
New York, Nov. 9.—For a few days topped at the opening of today's market as a result of the situation in Germany. Demand Sterling dropped more than three cents to \$4.40, a new year's low. French and Belgian francs declined sharply.

SAVES REPUBLIC

PRESIDENT EBERT

An effort to restore a monarchy in Germany, which had its inception in Bavaria, the revolutionaries of which province hoped to make Bavaria dominant in the German "empire" instead of Prussia, has been frustrated by the republican forces loyal to President Ebert and the republic, latest dispatches say.

for Honest Policy

By Associated Press Leased Wire
Galesburg, Ill., Nov. 9.—Russell Malcolm, Lombard College freshman, who is working his way through college by driving for a local taxi company, has been named to the University of Illinois as its representative. Malcolm found a pocket book containing money, jewelry and the name of Mrs. Owen B. West, Yates City, Illinois, in his cab. He telegraphed Mr. West who is a state representative.

When Mr. West claimed his property, he was impressed by the lad's honesty that he gave him a scholarship at the University of Illinois for next year. Malcolm says he will accept the scholarship.

Goodfield Bank is Robbed Last Night

By Associated Press Leased Wire
Peoria, Ill., Nov. 9.—Sheriffs officers of Woodford County are investigating the robbery of the State Bank at Goodfield, near Eureka, early today. It is believed little money was obtained. Citizens are reported to have frightened them away.

Noted Presbyterian Divine Died Today

By Associated Press Leased Wire
Pittsburgh, Pa., Nov. 9.—The Rev. Dr. J. K. McClurkin of Pittsburgh, a leading figure of the United Presbyterian Church in North America, died today of heart disease following an attack of pneumonia.

He was born in Sparta, Illinois in 1852.

THE WEATHER

FRIDAY, NOV. 9, 1923
Illinois—Fair tonight and Saturday, slowly rising temperature.

Chicago and vicinity—Fair tonight and Saturday, slowly rising temperature; lowest tonight about 35; gentle to moderate winds mostly southwest.

Wisconsin—Fair tonight and Saturday; warmer tonight; slightly colder in northwest portion Saturday.

Iowa—Fair tonight and Saturday; warmer tonight in east and south portions; somewhat colder in west and north central portions Saturday.

LUDENDORFF AND HITLER TAKEN TODAY

Coup Failed When Govt
Troops Surrounded
Bavarian Rebels

GERMAN REVOL TOLD IN SUMMA

(BY THE ASSOCIATED PRESS.)
The National putsch staged in Munich, capital of Bavaria, by General Ludendorff and Adolf Hitler has been suppressed, and Von Poehner, named premier by the revolutionists, is under arrest, according to advice received through various trustworthy channels.

Ludendorff and Hitler who last night proclaimed themselves respectively Military Dictator and Chancellor of all Germany are reported to be barricaded in the war ministry building in Munich, which is surrounded by troops loyal to the government.

Advices from Berlin and other centers show Dr. Von Kahr, Bavarian dictator under the Von Knilling regime, and the Reichswehr Commander Von Lossow allied themselves against the Von Ludendorff-Hitler organization and that the coup was confined almost wholly to the Munich baw house in which it was staged.

The intense activity in Berlin which followed the first news of the outbreak of the putsch, is watching developments closely, and Premier Poincare this morning was in conference with his war minister while the inter-allied council of ambassadors has been summoned to consider the situation.

The revolt had a depressing effect on foreign exchanges in New York.

BULLETIN.
Berlin, Nov. 9.—(By The Associated Press.)—General Ludendorff and Adolf Hitler, leaders of the Bavarian revolt, have been captured by federal troops.

An official communication says:

"The Kommandantur building at Munich was taken this afternoon by Reichswehr troops after struggle during which considerable losses occurred on both sides and Ludendorff and Hitler were arrested."

BULLETIN.
Berlin, Nov. 9.—(By The Associated Press.)—The nationalist coup in Munich can be considered settled, says the semi-official Wolff Agency in a note quoting advices received through Wurzburg, northwest of Munich.

Reports have come of the arrest of a member of the Hungarian parliament, who is said to have concluded a secret agreement with Hitler and Ludendorff regarding joint action at Munich and Budapest.

"PUTSCH" ENDED
London, Nov. 9.—A Central News dispatch from Berlin says the following message has been received from Munich:

"The putsch is considered to have ended. Ludendorff and Von Hitler have barricaded themselves in the war ministry which is surrounded by troops. Von Poehner, who had assumed the premiership of the new government has been arrested. The Reichswehr are loyal to the Berlin government."

Another Central News dispatch from Berlin, relaying a Munich message, said the government of Premier Von Knilling was acting in concert with Dr. Von Kahr, military dictator and that they were hopeful of mastering the "putsch."

DICTATOR IS LOYAL
Berlin, Nov. 9.—(By The Associated Press.)—Advices from Munich up to 10:30 a. m. indicate that Bavarian dictator Von Kahr and the Reichswehr commander Von Lossow are not in the "putsch."

IN THE FIRELIGHT—
The fire upon the hearth is low,
And there is stillness everywhere,
While the winged spirits, here and there,
The firelight shadows fluttering go,
And as the shadows round me creep,
A childish treble breaks the gloom,
And softly from a further room
Comes, "Now I lay me down to sleep."
And somehow with that little prayer,
And that sweet treble in my ears,
My thoughts go back to distant years
And linger with a loved one there,
And as I hear my child's amen,
My mother's faith come back to me,
Crouched at her side I seem to be,
And mother holds my hands again.
Oh, for an hour in that dear place!
Oh, for the peace of that dear time!
Oh, for that childish trust sublime!
Oh, for a glimpse of mother's face!
Yet, as the shadows round me creep,
I do not seem to be alone,
Sweet magic of that treble tone,
And "Now I lay me down to sleep."
—Eugene Field.

Ideal Club Was Pleasantly Entertained

The members of the Ideal club were delightfully entertained on Wednesday afternoon at the home of Mrs. L. W. Miller, 1615 West Third street, most of the members being in attendance.

In the absence of the president of the club, Mrs. H. C. Fordham, the vice president, Mrs. F. G. Wohnke, presided.

The roll call was answered to with household hints, many of which were varied and helpful.

The paper of the afternoon sent by Mrs. Fordham, most interesting and chiefly a discussion of music, was read by Mrs. Howard Beam.

During the afternoon Erman Miller delighted all with several vocal solos and Miss Elwyna Miller also greatly pleased with several piano solos.

Interesting current events were followed with the serving of tempting refreshments and a happy social hour, completing an unusually enjoyable afternoon.

Mrs. E. D. Gullion of Nelsonville, Mo., was a guest for the afternoon.

MR. AND MRS. DRESSSEL RETURN HOME—
Mr. and Mrs. Henry Dressel have returned to their home in Jefferson Barracks, Mo., after a brief visit at the Coldwell home on Highland avenue. Mrs. Dressel before her marriage being Miss Frances Coldwell. The many friends of the young couple will be interested in learning that Mr. Dressel has an excellent position as manager of the Fredmar Farm, at Jefferson Barracks, Mo.

Y. P. M. S. Held a Pleasant Meeting

The Young People's Missionary Society of the M. E. church was delightfully entertained Tuesday evening at the home of Mr. and Mrs. Henry Leydig.

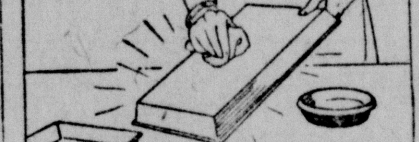

Members and guests numbered sixty. A picnic supper was served at 6:30.

Later in the evening an excellent program was given. Mrs. A. S. Moore had charge of the devotionals. Miss Ino Sheilman had the Home Study, "Singing Young Bodies," and A. N. Richardson had the Foreign Study, "The Japanese Family System."

Following the lesson study a delightful musical program was in honor of Miss Flora Pessenden, of Clyde, Kans., and the Misses Mildred and Mabel Entorff, of Amboy, Ill.

HOUSEHOLD SUGGESTIONS—Discolored Nickel.

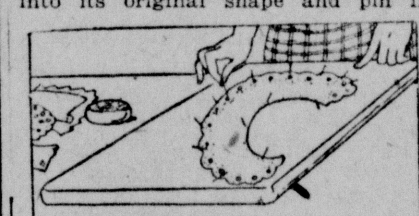

If your nickel pans become discolored,

ored, clean them by rubbing with a paste of whiting or a fine scourer.

Dish Towels.
Cheesecloth, cut into yard lengths, makes very good towels for drying cups or fine china.

Ironing Lace.
Instead of ironing lace it is more satisfactory to stretch it while wet into its original shape and pin in

position on a well padded board. If allowed to dry this way it is like new when dry. If it must be ironed, always iron it on the wrong side over a thick pad.

BRIDGE CLUB LUNCHEON AND PICTURE SHOW PARTY—

The members of the Bridge club yesterday enjoyed a luncheon at Miss Breed's and a picture show party afterwards, and saw "Ashes of Venice," at the Dixon theatre in which the lovely Norma Talmadge and fascinating Conway Tearle starred.

Thursday Reading Circle in Meeting

The Thursday Reading Circle met with Mrs. Henry Floto in a very enjoyable meeting Wednesday afternoon. The beautiful autumn flowers and foliage were much admired at the Floto home.

Mrs. Robert Anderson read an interesting paper on present day conditions in Europe.

Mrs. Lydia Parks gave description of the life of the Prince of Wales when on his ranch, and this was a delightful feature. Mrs. L. N. Deutsch gave two most enjoyable readings, completing the program.

A social hour following the program and delicious refreshments were served by the hostess. Chrysanthemums graced the table.

PHIDIAN ART CLUB MUSICALE, TUESDAY, NOV. 13—

The members of the Phidian Art club will be entertained at a musicale to be given on Tuesday afternoon, Nov. 13th, at the home of Mrs. Harry Roe, 528 E. Fellows street.

The program is to be given by Mrs. Seibel Carr of Chicago, a member of the artist class of Madame Hess-Burr. This will be guest day and each member is privileged to invite a guest.

Members attending will please notify Mrs. George Dixon or Mrs. John Crabtree by Monday morning.

WILL MEET TO SEW AT MRS. ROWLAND'S—

All members of the Woman's Auxiliary to the Presbyterian church are invited to the sewing bee to be held at the home of Mrs. A. A. Rowland, 206 Dement avenue, Saturday afternoon. Sewing will be done for the bazaar to be held next week and it is desired that all auxiliary members be present if possible.

CHICKEN DINNER AND SUPPER—

The Ladies' Aid Society of St. Paul's Lutheran church will serve a chicken dinner and supper in the parlors of the church Saturday, Nov. 10. A sale of useful and fancy articles will also be held.

MYSTIC WORKERS MEET TONIGHT—

The members of the Mystic Worker lodge will meet this evening in Union hall. Don't forget the December banquet. Cards and refreshments.

MOTORED HERE FOR VISIT—

Lyle Taylor and family motored here from Union Grove, Wis., for a visit with Mr. Taylor's mother, Mrs. A. B. Taylor.

SISTER Mary's KITCHEN

BY SISTER MARY.

CURING HAM AND BACON.

Do you ever cure ham or shoulder or bacon yourself? It may sound like quite an undertaking but it's really easy to do and very much worth while. A fresh ham is never as expensive as a smoked one at butcher shop and if you can buy direct from a farmer the saving will amount to much.

Most butchers have smoking facilities for their own use and are willing to take care of the smoking of meat for their customers.

While the cured hams and bacon on the market are very good you will enjoy some home-sugar-cured ham.

To Sugar Cure Ham or Bacon.

Five pounds salt, 5 ounces pepper, 1 ounce saltpetre, 1 pint molasses. This rule will cure 100 pounds of pork.

Rub one tablespoon table salt around the bone of the hams and shoulders. Rub meat well with molasses. Mix salt, pepper and saltpetre and rub on the meat. Use about one-third of the whole amount the first time. Let stand three days. Repeat twice with an interval of three days each time. Let stand in a cool place for from four to six weeks. Smoke.

This method does away with fussing with a brine, but it's sort of "messy" rubbing the molasses into the meat, and the meat must be put into tubs while standing. Perhaps you will prefer the use of brine. Personally I think the meat runs less risk of being hard when a brine is used.

To Cure Pork With Brine.

First rub each ham with 1 teaspoonful of powdered saltpetre. Rub around the bone with 1 teaspoon of pepper.

For 50 pounds of meat—Mix one and one-half pounds brown sugar with two cups salt and rub meat thoroughly. Put a layer of salt of the bottom of a large tub, put in meat, skin side down and sprinkle with salt. Add more meat, cover and let stand for

eight days. Then take out, wipe off all the salt and wash the tub.

Take five ounces saltpetre, eight cups molasses, eight cups salt, two gallons water, boil and skim. When cool pour meat in the tub. The brine should completely cover the meat. Turn the meat once a week to be sure it is curing evenly. Let stand in the brine four or five weeks. The bacon will cure in three weeks. Then take out and smoke.

The woman who must use any large amount of lard during the winter will find she can save money if she will buy the fat and try out the lard at home.

Buy "leaf" lard at the butcher shop and try out the fat. This will insure superior lard for pies and cookies.

To Try Out Lard.

Cut the fat into small pieces. Put in a big smooth kettle with just enough water to cover the bottom. The water is added to prevent scorching when the fat is put over the fire. Cook slowly, stirring frequently, until the pieces of fat are crisp and crackly. When these settle to the bottom of the kettle the lard is done. Remove from the fire and strain into a sterilized stone jar. When cold tie a clean cloth and several thicknesses of paper over the top.

In the good old days these little crisp bits of fat were made into a sort of porridge. They were known as "cracklins" and were considered a treat.

Put cracklins into boiling water, add salt and sift in corn meal to make a thick mush. Cook, slowly stirring often, just as you do plain corn meal mush. Turn into a mold and when cold and firm cut in thin slices. Fry a golden brown and serve with maple sirup.

This is a really delicious luncheon dish on a cold day.

(Copyright, 1923, NEA Service, Inc.)

Mrs. Jesse Huggins Pleasantly Surprised

Last evening a company of relatives and friends gathered at the home of Mrs. Jesse Huggins of Second street and surprised her, the day being her birthday anniversary. After the happy surprise occasioned by the sudden arrival of about thirty-five guests, all settled down to an evening of five hundred.

Mrs. Jesse Huggins won the first prize for ladies and Mrs. W. A. Munz of Sterling won the consolation prize. Ed. Franks and Sam Boyer tied for prize for the gentlemen. Mr. Boyer winning out. Raymond Huggins was awarded the consolation prize.

A delicious luncheon was served during the evening.

The guests made Mrs. Huggins the gift of some beautiful china cups and saucers, which she values very highly and on departing at a late hour all

left Mrs. Huggins many good wishes for future happy birthdays.

MOTORED TO OREGON YESTERDAY—

Mrs. J. C. Lyons, Mrs. Phil O'Connell, Miss Margaret Burke and Mrs. Chester Barriage motored to Oregon yesterday and visited friends.

TERMS OF SUBSCRIPTION

In Dixon by carrier: 20 cents per week or \$10 per
year, payable strictly in advance.
By mail in Lee or surrounding counties: Per year, \$5;
six months, \$2.75; three months, \$1.50; one month, \$.75; all
payable strictly in advance.
By mail outside Lee and adjoining counties: per year,
\$7; six months, \$3.75; three months, \$2.00; one month, \$1.15;
Single copies 6 cents.

SKILL.

World's speed typewriting championship
goes to Albert Pangora. He wrote 9120
words in an hour, making only 21 errors.

The average word has at least six letters,
so Pangora hit the keys accurately, nearly
60,000 times in an hour—or 1000 times a minute,
about 17 a second. Each letter had to
be carried to the eye, on to the brain, then
telegraphed to the fingertips and called mus-
cles. Thought is the fastest thing in the uni-
verse.

DEATH.

The World War caused the deaths of 11
million people, according to the final figures
gathered by the Academy of Moral and Po-
litical Science of France.

While the war was going on, several times
that many were killed by the diseases result-
ing from normal congestion and other unnat-
ural living conditions of "civilization." Flu
alone killed more than the war, in less time.

LIGHT.

The day of the 100 per cent efficiency ex-
pert seems to be waning, and Americans are
learning to live a little as they go along. So
comments the Wall Street Journal.

It's about time. The efficiency experts—
spurring men on to the last ounce of endur-
ance, and standardizing us like clockwork,
canning everything from our food to our
thoughts—are destroying humanity at the
roots. Real civilization is more than a state
of slavery.

STAGING.

A girl invites a quarrel by wearing a red
dress. Blue soothes the young man and at-
tracts him. Men have a peculiar instinct that
makes them shy away from green. A girl
wearing much jewelry conveys the impression
of being a spendthrift, while brown suggests
she is practical.

These and other psychological hints are
given in the Y. M. C. A. course on etiquette for
business girls, in Chicago.

The plot of life depends on the way it's
staged. Even more so after marriage than
before.

THEATRICAL.

Israel Zangwill plays the American stage
because it carries no message, teaches no
moral. On the law of averages, yes. But
that's because our stage mirrors American
life—which in many ways is a frantic, nerv-
ous rush without any destination. We think
we are speeded up. So does the squirrel in
the revolving cage, running in circles.

WORLD COURT WEEK.

This is World Court week, to be observed
specially by the churches, closing with
World Court Sunday, Nov. 11. The Federal
Council of the Churches of Christ in America
has sent out an urgent appeal to the churches
to give World Court Sunday special attention.

The effort to align the churches in the
league of nations during the Wilson adminis-
tration, also the schools and colleges, which
was successful to an extent far beyond pro-
portion to the general sentiment of the people
of the country—as was demonstrated by the
vote against Mr. Wilson's candidate for the
presidency—is likely to militate against the
largest success to be attained in this new ef-
fort.

But this is a vastly different matter. There
is no doubt that a majority of the people fa-
vor a World Court, and our entry into it, prop-
erly safeguarded, whereas they would have
none of the league of nations. And this World
court idea is the suggestion of the late Pres-
ident Harding, who, it might be said, was
selected as the candidate in opposition to the
league of nations. Inasmuch as congress and
the administration can be depended on to
properly safeguard our entrance into the

World Court, if it is launched, making it to
involve no entangling alliances, the weight
of church influence may well be thrown in
its favor.

CARS.

A checkup shows that, for every 1000
Americans, 127 autos are owned in cities and
towns, against 70 cars for every 1000 people
on farms.

Motor trade experts are advancing various
theories to explain this. One theory is that
the farmer is more cautious at adopting the
new and improved.

The real answer, of course, is that farmers
can't afford as many autos as city folks. Ev-
en if they were on the same level of pros-
perity and income, the farmer has quite a
cash investment in land and livestock and
equipment. The city man, on a salary, needs
no capital for conducting his way of making
a living.

STATE CO-OPERATION.

The conference of governors, which Pres-
ident Coolidge has called to meet in Wash-
ington in October, will consider other mat-
ters than the enforcement of the prohibition
law. Immigration law violations and infrac-
tions of the narcotic laws will also be sub-
jects for discussion. Only through co-opera-
tion with state officials can criminals be
made to feel the full force of those statutes.
In soliciting suggestions and aid from the
governors, President Coolidge followed a
precedent established by the late President
Roosevelt and other republican executives.

TOM SIMS SAYS:

The powers want to reduce Germany's
debt, which is the only way to keep her from
owing so much.

Reducing Germany's debt makes that much
less the allies lose.

France thinks Germany should pay in full.
She wants to get madder when Germany
doesn't pay.

How can Germany pay? The idea is fool-
ish. She needs all her money to start internal
trouble.

Less movies will be made. It is a good
plan. Show the same films instead of just the
same plots.

Movie business is slacking up because peo-
ple have seen them all.

Movie stars are going to the speaking
stage. This is too bad. Many will have to
learn English.

Other improvements are noticed. The der-
by hat is passing. Old ones will make nice
flower pots.

The measles microbe has been discovered
and will be fought. It brought this all on it-
self.

Governor of Pennsylvania will wear a Tex-
as hat, which is much better than talking
through it.

Plasterers in Chicago are receiving \$25 a
day. We think this is laying it on pretty
thick.

Things are quite lively in Boston. A man
was arrested there for claiming a razor beat
four aces.

Idaho man wants divorce because his wife
would cook nothing but eggs. She just egged
him on.

Many sealskin coats are being sold for win-
ter. Many of these coats were worn by rab-
bits.

A Georgia farmer who wondered if rob-
bers would get \$600 out of his coffee pot
found they would.

A policeman shot a burglar in New York.
Perhaps he will claim he didn't know it was
loaded.

Chicago barber attacked a man with a
spade. Wash your head before getting a
haircut.

Trouble with electing the wrong man to of-
fice is you can't get your money back if not
satisfied.

Our oil output is increasing. And since
school opened the oastor oil intake has in-
creased.

If you laugh too much your friends will
think you are a bootlegger or a coal dealer.

The only smoke nuisance now is how to
make a smoke.

A man bigger than you is never a liar. He
is mistaken.

The hand that wields the lipstick seldom
wields the broomstick.

ADVENTURES
OF THE TWINS

by Olive Roberts Barton

NO. 14—POUCHER PELICAN'S LESSON

The next minute the Twins saw Poucher swimming toward shore.

Miszez Pelican was a queer bird. She was queer as to looks and queer as to appetite and queer as to habits—so being queer in three things, you might say she was queer all over.

She wasn't a bit handsome. She had a look long enough for three birds, and she carried her market basket on her chin.

She lived on the edge of the ocean in Dixie Land with six of her children and had a pretty good time fishing and feeding her family and seeing that they all grew up into good smart little pelicans.

So now you know all about her.

Nancy and Nick happened along when she was giving her son, Poucher Pelican, a lesson in fishing, so they sat down on a rock to watch and listen.

"Do it this way, Poucher," said Miszez Pelican. "You paddle out on the water a little way and then stop stony still. Keep as quiet as you know how and when a fish comes near, make a grab and tuck him away in your chin. When you get two or three fish you can swim to shore and take your time while you dine. You are not so likely to get indigestion as you would if you boited your food."

"All right, Mammy," said Poucher, waddling off to the edge of the water and floating away as lightly as a cork.

Just, he was away out where it was. With a few shoves of his queer paddle deep, and then remembering his mother's words, he stopped stony still.

Suddenly the Twins saw a fish come to the top of the water on a big wave. It had a long pointed nose and its fins stuck up like sails. That's what its name was, a sail-fish, and it was as long as a bath-tub.

"Goodness!" gasped Nancy.

"Jinny Christmas!" said Nick.

They were just about to make use of their magic shoes and save poor Poucher's life when evidently Mister Sailfish decided he didn't want pelican that day for his lunch and swam out to sea.

The next minute the Twins saw Poucher swimming toward shore as fast as his paddle feet could push him. He had a worried look on his face, didn't tell me what to do when the fish is too big to tuck away in my chin!"

"Why you just eat it then and there," she answered. "You don't mean to tell me you let a perfectly good dinner get away."

"Well," the Twins heard Poucher say thoughtfully, "somebody's dinner got away. But I think it was the fish's."

Retain Your Clothing

BY BERTON BRALEY

The man who keeps his shirt on

Is the fellow who is wise.

He'll get along for certain.

Better far than hasty guys.

When there's any trouble brewing

He'll be safer than the wight.

Who gets red of eye and stewing,

And who's spoiling for a fight.

The man who keeps his shirt on

May, at seasons, have to scrap.

There are things you can't avert on

Some occasions; but the chap

Who, though angry, keeps his balance

And is calm throughout the fray,

Can use all his fighting talents

In the most effective way.

And in ordinary cases

And the steady run of life,

He who keeps his temper faces

Very little storm or strife.

And I venture to assert on

Most occasions which I note,

That the man who keeps his shirt on

Seldom has to shed his coat!

The times of this ignorance God

winced at; but now commandeth all

men everywhere to repent.—Acts

17:30.

It is never too late with us, so long

as we are still aware of our faults

and bear them impatiently—so long as

noble propensities, greedy of conquest,

strive within us.—Jacobi.

Church Notes

GRACE EVANGELICAL CHURCH

E. Fellows St. and N. Ottawa Ave.
on the North Side

Rev. F. Brandeliner, Pastor

"For the prophecy came not in old time by the will of man but holy men of God spoke as they were moved by the Holy Ghost." II Peter 1:21.

Do you know? That love can only be expressed in giving.

That the golden age is not behind us but before us.

That spiritual life and physical life are subject to laws of growth.

That moral character is responsible to God and that differentiates man from other creatures.

That when every man is at peace with God by faith in Jesus Christ there will be peace among the sons of men.

That there is no world disorder or national or individual sin for which God has no remedy.

That the nations of the world have learned war and that's the reason they practice it.

May the Lord hasten that day when the Lord Jesus Christ, the Son of God will put the world right for God. Until that day comes may we seek grace to be "in the world, yet not of it" enduring as seeing Him who is invisible.

Next Sunday is Armistice Day. The morning message will be given on the theme "The Secret of Righteousness."

Sunday School 9:45 a. m. C. C. Buzard, Supt.

Morning worship 10:45 a. m. Special singing by the choir.

P. L. C. E. and Children's Bible hour 6:30 p. m.

Gospel Message 7:30 p. m. Subject "Four of the Greatest Things."

Wednesday evening 7:30 Prayer and praise service.

You are cordially welcome.

FIRST BAPTIST CHURCH

Rev. L. D. Lamkin, Pastor

Sunday is to be one of the most important days in the history of the church and every member who has an ounce of interest in its future prosperity is urged to be present Sunday morning at 10:45 o'clock. The demand is so imperative that, sick or well, every member must be present. All the members of the church and the future of Christian religion as far as the influence of the Baptist church extends in Dixon depend upon the faithful attendance of the members of the church at the service Sunday morning. May every member weigh well the importance of what your pastor is now placing before you, and take it as a prayerful consideration.

Services for the day:

9:45 a. m. Sunday School

10:45 a. m. Preaching service. Dr. Lamkin's subject: "The Prayer That Saved a Nation and that can Save a Church."

7:30 p. m. Special service. Subject: "To Marry or Not to Marry."

The public is invited to all of these services and a special invitation is extended to the young people of the city and community to hear the third of the series of sermons in the interest of the young life of the community, which will be delivered in the evening.

COLONY SERVICE

Rev. Aubrey S. Moore will have charge of the Colony service on Sunday at 5:30 p. m.

FIRST CHURCH OF CHRIST, SCIENTIST

315 West First St.

Regular service Sunday morning, Nov. 11 at 11 o'clock. Subject "Adam and Fallen Man."

Sunday School 9:45.

The reading room is open each week day from 2 to 4 except holidays. The public is cordially invited to attend.

NACHUSA ST. PAUL'S LUTHERAN CHURCH

Rev. D. P. Heltzel, Pastor

Bible School 10:00 a. m.

Morning worship 11:00 a. m.

This service will be in keeping with Armistice Day. Come and celebrate the day with us. Subject: "Fundamentals of Peace."

Evening worship 7:30. Subject:

"The Word Made Flesh." John 1:1-18.

The Missionary society met Thursday afternoon at the home of Mrs. Harry Weigle, with Mrs. Eph Weigle and Mrs. Gus Kohl to assist in entertaining and serving. A Thank-Offering program was splendidly and profitably carried out. Arrangements were made for a public Thank-Offering meeting to be held in the near future.

Two new members were received—Mrs. Frank Winters and Mrs. Wm. Carson. Following the program the usual lunch was served, and a most appetizing lunch it was.

Choir meets each Friday evening, at such of the homes as is designated by the organist, Mrs. Elizabeth Emmert.

Prayer or mid-week services each Wednesday evening.

Our attendance, generally pretty good, is not by any means up to what it should be for this community. Come and go with us. Especially and urgently do we invite you to our Armistice Day Service.

METHODIST EPISCOPAL CHURCH

Rev. Aubrey S. Moore, Pastor

9:45 a. m. Sunday School for Bible study, a splendid orchestra, a happy hour, and an interesting lesson!

10:45 a. m. Sermon "A Lost Boy."

6:30 p. m. Epworth League, Miss Velma White, leader.

7:30 p. m. "Mohammedanism, the Unitarianism of the East." This will be the second sermon in a short series of sermons on the Religions with which Christianity must cope. "Islam" is Christianity's greatest rival in the East today. Rev. Moore will discuss its origin, including the founder; its teachings; and its fruits.

7:30 p. m. Wednesday devotional service.

8:15 p. m. Two classes will meet, an Epworth League class in Civics led by Miss Scott and a discussion period for all who are interested in Sunday School work will be led by Rev. Moore.

A most cordial welcome is extended to all.

ST. PAUL'S EVANGELICAL LUTHERAN CHURCH

Rev. Lloyd Warren Walter, Pastor

9:45 a. m. Sunday School. W. E. White, Supt.

10:45 a. m. Morning Service. Sermon by the pastor.

6:30 p. m. Luther League. Topic: "Ministerial Pensions and Relief."

7:30 p. m. Evening Service. Sermon by the pastor.

2:00 p. m. Saturday Nov. 17, organization of class in catechism.

7:30 p. m. Wednesday midweek service.

SUGAR GROVE

1:30 p. m. Sunday School. Bert Pearl, Supt.

2:30 p. m. Preaching Service. Rev. Lloyd W. Walter will preach the sermon.

AMBOY LUTHERAN CHURCH

Rev. Paul H. G. Bredow, Pastor

Graded Sunday School at 9 a. m. Review Sunday.

Regular morning worship with preaching at 10 a. m. The sermon subject: "The Lord Our One Comfort, In Life and in Death."

The Ladies' Aid will meet with Mrs. Thomas Michon Thursday afternoon at the usual time.

AMBOY M. E. CHURCH

Rev. Milton Dawson Bayly, Minister

Church School at 10 a. m. A place for young and old. Ray Price, Supt.

Morning Worship at 11 a. m. This is World Peace Sunday. Both services of worship will fittingly observe the day. Morning theme, "Christ or Chaos."

All Kinds of Draying

LONG DISTANCE HAULING

ROY FREED

Phone 295

Freed's Feed Barn

Evening Service at 7:30. Theme:

"The World Peace Court."

Young People's meeting at 6:30.

Three papers will be given this Sunday evening on the life of Paul. "The Riot at Ephesus" by Raymond Turner.

"Athens in the days of Paul" by Harvey Baker and "Paul's Journey to Rome" by Miss Inez Snader. These meetings are enjoyed by increasingly large numbers. You will enjoy them.

Church training night, Wednesday, 7:30 p. m. Theme, "Methodism in the Remoulding of China." Bring to this service a list of your five favorite hymns. All are welcome to attend these services.

HARMON LUTHERAN CHURCH

Rev. Paul H. G. Bredow, Pastor

Graded Sunday School at 1:30 p. m. Lesson subject How Jacob Deceived His Father and Brother.

Regular worship with communion service at 2:30 p. m.

PINE CREEK CHURCH OF THE BRETHREN

Rev. U. H. Hoefle, Pastor

Sunday School 10 a. m.

Sermon by M. W. Emmert of Mt. Morris at 11 a. m.

Mission Study Classes 7:00 p. m. Sermon 8:00 p. m.

Everybody invited to attend.

FRANKLIN GROVE CHURCH OF THE BRETHREN

Rev. C. H. Knagy, director of religious education of the Mt. Morris college territory of the Brethren church will speak at both the morning and afternoon services. In the morning at 10:30 he will speak on the subject "The new day of religious education."

In the evening at 7:30 his subject will be "Facing our Task."

CHRISTIAN CHURCH

Rev. B. H. Cleaver, Minister

J. F. Cox, Bible School Supt.

Louis Leydig, Chorister

Bible School 5:30

Morning Worship and Communion 10:45.

C. E. 6:30

Evening Worship 7:30.

Sermons for Sunday: "The Price of Peace," (Armistice Day Address) and "The Heavenly Shelf." The C. E. topic will be "Courage Needed Today—For What?"

At 2:30 there will be a meeting of children and leaders for the purpose of organizing a Junior C. E. society.

ST. LUKE'S EPISCOPAL CHURCH

Cor. Peoria and 3rd

Rev. G. Carlton, Story, R. D. Rector

24th Sunday after Trinity. Armistice Day.

8:00 a. m. Holy Communion.

9:30 a. m. Church School, George Hawley, Supt.

10:45 a. m. Morning Prayer and sermon.

KINGDOM EVANGELICAL CHURCH

Rev. M. A. Goss, Pastor

The special revival effort which began on Oct. 14 came to a very blessed and victorious close last Sunday afternoon. Twenty-one knelt at an altar of prayer and testifies to the saving power of Jesus in their own lives, and three persons knelt for re-consecration during the meetings. Last Sunday afternoon, following a basket lunch in the church, the pastor received into the fellowship of the church 21 persons, most of whom were saved during the meetings.

10:00 a. m. Sunday School. Topic: "Some Missionary Teachings of the Psalms."

German service 10:30 a. m.

Theme: "But as for Me and My House, We will Serve the Lord." Josh. 24:15.

A hearty invitation is extended to all.

EMMANUEL EVANGELICAL CHURCH

Rev. M. A. Goss, Pastor

Our special revival meetings are to begin Sunday, Nov. 11 and continue indefinitely. Services each evening at 7:30, except Saturday evening. The entire community is cordially invited to attend. Special music each evening.

10:00 a. m. Sunday School. Topic: "Some Missionary Teachings of the Psalms."

11:00 a. m. Preaching services. Theme "Can These Dry Bones Live?"

7:30 p. m. Short song service, followed by a message by the pastor on "God's Great Challenge to His People."

"Let us therefore come boldly unto the throne of grace, that we may obtain mercy and find grace to help in time of need." Heb. 4:16.

ELDENA EVANGELICAL CHURCH

Rev. M. A. Goss, Pastor

2:00 p. m. Sunday School. Topic: "Some Missionary Teachings of the Psalms."

3:00 p. m. Preaching services.

A welcome is extended to all to attend these services.

CHURCH OF THE BRETHREN

Cor. 3rd and Madison Ave.

Rev. W. C. Sell, Pastor

Our slogan "Back to God and Live the Truth."

Sunday School (all ages) 10:00 a. m. Sermon by Rev. G. L. Wine 11:00 a. m.

Special Service 7:00 p. m.

Preaching by Rev. G. L. Wine 7:45 p. m.

Ladies Aid all day Wednesday at parsonage.

There have been splendid services at the church all week. Last evening there was a full house. The evangelist preached on the subject "Heaven."

Tonight he will preach "Crossing the Danger Line." Come and hear him. It is just the sermon you will not want to miss. The Polo church is sending a delegation with special music. We have splendid congregational singing. Come bring in the unsaved that their hopelessness might change to hopefulness. You who know the glories and love of Christ should let your light so shine that others may see your good works and be brought in and glorify your Father which is in heaven. Pray for the success of these meetings. Pray for the lost souls.

FIRST PRESBYTERIAN CHURCH

Where a welcome awaits you

Prentiss Hovey Case, Pastor

9:45 a. m. Bible School

Dr. Lehman, our superintendent, will be in his place after a three weeks vacation. Let us all be on hand to welcome him.

10:45 Morning Worship. Sermon "I Am Afraid." Sermonette for Junior congregation. Chalk Talk "A Firm Foundation." Special music by quartet. Choir. Soloist Mrs. Dr. Thompson.

There will be no Vespers Service on C. E. as the church and congregation has accepted the invitation to attend the dedication of the new \$100,000 Presbyterian church at Sterling at 3 and 7:30 Sunday afternoon and evening. The preachers will be Drs. Stephenson of Rock Island and Palmer of Columbus, O.

15,000 Lives Saved Annually in State

By Associated Press Leased Wire

Woodstock, Ill., Nov. 9.—Fifteen thousand lives have been saved in Illinois each year since 1921 due to an organized and efficient health organization. Governor Len Small told members and guests of the Good Roads club at a luncheon here today.

There were 39,000 fewer deaths in Illinois in 1921 and 1922 than in the two years preceding," the governor said, "despite the increase in population."

"Charitable institutions in the state," he continued, "are in such splendid condition that they can favorably compare with those of any other state in the union. We aim and insist that every person in our charge be given good, wholesome food, be well clothed, have good treatment, and efficient care. Upbuilding of healthful citizens is considered as one of the primary duties of good government."

Speaking on his most important campaign issue, hard roads, Governor Small told the gathering that increased motor license fees and the splendid progress being made on the hard roads, evidenced the soundness of the highway financing plan. He quoted figures on progress being made throughout the state.

Governor Small's address preceded the holding of a re-hearing by officials of the state highway division regarding the location of Routes 19 and 29 in the vicinity of Crystal Lake and other McHenry county points.

USE HEALO

Absolutely the best foot powder on the market. Ask any druggist. If

French government bought the famous statue of the Venus de Milo for \$200.

Ask your druggist for a box of Healo—conceded to be the best foot powder made. Sold by druggists everywhere.

ALFALFA TURNS PROFIT OF \$100 ACRE TO FARMER

Freeport Farmer Reports Profitable Return on Crop.

Freeport, Ill., Nov. 9.—While reports of complaints that farm land is too expensive and that the investment is too big for the farmer to "break even" on his farming operations have come from several quarters, one crop is being produced in Stephenson and other northern Illinois counties that is stoutly defending present land values. That crop is alfalfa.

William A. Moore, a farmer living north of here, recently took a two ton load of baled green alfalfa to market and received \$70 for it. That load of alfalfa represented the production of about two-thirds of an acre of land, which means a gross return of \$100 per acre from a crop which is at the same time adding to the fertility of the soil in which it is grown. It also is a crop that draws its plant food material largely from the air instead of from the soil.

Mr. Moore sold his first crop of alfalfa in the field for a price that netted him \$20 per acre. The purchaser "made" the hay. Pleased over his first experiment with alfalfa Moore says he will plant 80 acres of alfalfa next year. The Moore case is being cited by the Stephenson county farm bureau as typical of the results to be obtained in all parts of northern Illinois from alfalfa growing.

The bureau has been for years boasting alfalfa and encouraging farmers to plant small fields of it to satisfy themselves that it can be successfully grown almost anywhere when proper attention has been given to the soil through liming operations.

The farm bureau, through its advisers, G. F. Baumeister and W. A. Horning, organized a limestone-grinding company. Machinery was purchased and put to work. A dump truck was bought. Limestone was ground and delivered to the farmers field at \$2.50 per ton. During 1922, about 4000 tons were ground, and in 1923 about 6000 tons were ground and delivered to farmers. The abundance of local limestone, which was found close to the surface and therefore easily quarried, made conditions particularly favorable for providing ground limestone at a comparatively small cost.

Stephenson county limestone has been shown by test to be exceptionally rich in calcium carbonate equivalent.

lent. There was objection at first because the head limestone was yellow, while that shipped from other localities was white, but it was shown that the stone quarried locally had a yellow tinge because of the presence in it of considerable magnesium carbonate, making the local dolomitic limestone more valuable for soil-sweetening purposes than the white.

Stephenson county is well on the way to alfalfa success. Its 38,000 dairy cows and 20,000 beef cattle are soon to have an abundant supply of this nutritious food. Land values are going even higher, farm bureau officials declare, as land owners work to make them productive of returns on higher valuations.

FRINGE TRIMMING

Wool fringe is one of the latest means of trimming cloth frocks. It

A BIT CARELESS

MRS. FLAKE—Husbands strange creatures.

HER FRIEND—Aren't they? has to ask his garage man a hundred questions about the brand and make of the car before he puts a drop of oil into it. But he never asks a single question of his mechanic about the condition of the engine.

UNIVERSITY TEAM IS TRULY ILLINOIS BUNCH IN ALL WAYS

But Two of Men Meeting Badgers from Outside State.

Urbana, Ill.—Illinois' regular football team is a corned produce. Only two of the eleven men who will start against Wisconsin tomorrow are residents of other states—Dick Hall and Frank Lukasek. That makes the eleven a truly Illinois bunch against the invaders from the north.

There are thumbnail sketches of the boys who make the Illinois variety:

Capt. McMillen is playing his third year. As a sophomore Zupke used him as a tackle and center, with only moderate success. Jim went out for wrestling and picked up the knowledge of leverage and balance helped to win him a post on every all-conference selection last season. McMillen won the Big Ten heavyweight wrestling title in 1922 and lost in the finals last year when he sprained his shoulder. He is 20 years old, weighs 210 pounds in fighting trim and stands an even six feet. He comes from Grayslake, up in Lake county, Illinois.

Vivian Green, Center is in his third year. He played football at Urbana high school. He weighs 191 pounds, stands 5 feet 10 inches and is 21 years old. Green has proved capable of out-rending his job against all comers.

Harry Hall, Quarter (Swede) Hall, Zupke's quarterback, is a junior, but playing his first year. An injury kept him out all last season, but he was sent in at quarter in the first day of practice this fall and has been used ever since. To date Hall has not run the ball much, but his field generalship and defensive playing mark him as one of the leading quarters of the Big Ten. He played football and basketball at Waukegan high. He is 20 years old, weighs 150 pounds, is 5 feet 11 inches tall, and is a brother of the famous "Swede" Hall who played basketball and football at Illinois a decade ago.

Grange is Track Man, Too! Harold Red Grange, star-sophomore back, has made a great name for himself already. To date he has scored 16 touchdowns with his open field running and ability to swing passes, leading the conference. Grange is a track man, doing the 100 and 220 in close to even time. He won the state interscholastic meet singles, handed one year for Wisconsin high school. He is 20 years old, 5 feet 9 inches tall, and weighs 167 pounds.

McMillan is Veteran Wallie McMillan is the only veteran in regular backfield. He won a letter last year and is Coach Zupke's set back through center or guard this season. He plays right half, but hits the opposing wall with a fullback smash and a peculiar twist which makes him hard to hold. McMillan is also a trackman, stepping over the low hurdles in fast time. He is 5 feet 9 inches tall, weighs 175 pounds, is 20 years old, and learned his football at Deerfield-Shields high school.

Britton Does Kicking Earl Britton, former Elgin high school star, does all the kicking and has a good deal of the passing. He has an uncanny ability to get every one of his 198 pounds behind the ball, and

Girl Violinist Struggles Way to Childhood Goal

BY MARIAN HALE
NEA Service Writer

New York—Cecilia Hansen, demure violinist, has come here from Russia with a philosophy of life which she herself practiced to success.

"Set your mind on what you want, above everything else in the world. Then go after it and get it."

That has been her motto, and on that she clung to firmly. She has been acclaimed by New York critics as another musical genius come from Europe.

From her earliest youth she had set her mind on becoming a violinist of note. At six she was admitted to the violin class of the Rostov Conservatory in Finland. At eight, she made her first public appearance.

War and Exile But she hadn't yet reached her goal. She went to Petrograd to study. Then the war came and her career had to wait. She was kept in Russia when the Bolsheviks gained control.

One stormy night she escaped in a small boat and spent 17 hours tossing on the sea, never expecting to land. Eventually she got to Poland, and exile.

"But never during the Bolshevik terror or during the horrors of war did I give up my ideal," she assured me. "I worked unceasingly, knowing that things would eventually come my way."

Her Philosophy "I believe you can look at life from the large or small end of your opera glasses, as you prefer. I choose to look at my troubles through the small end and have them as far off as possible."

"It isn't easy to minimize your failures and discouragements. You have to cultivate that attitude of mind. When I have discouraging times and everything goes wrong and I feel I'd like to drag myself in garments of self-pity, I put on a pair of hiking boots and a tweed suit, and I walk till I get rid of the mood—rain or shine. I never let any unhappy mood get the better of me."

"As problems pile up on me, I tell myself everything is psychological."

reels off 60 yard punts and kickoffs. In the Iowa game he booted a place kick from the 50 yard line and tossed passes an equal distance for Grange to score the winning touchdown. He is 21 years old, 5 feet 9 inches tall, and weighs 165 pounds.

Muhl is From Iowa Clarence (Stub) Muhl has shown ability to grab passes and speed in getting under punts. His first name is Clarence, but none of the opposing backs on whom he has laid hands have ever suspected it. He is from Oskaloosa, Iowa, and it was out in his native state that he got his chance, helping to spoil a homecoming for 25,000 Iowa rooters. Muhl is short for an end, standing only 5 feet 7 inches high. He weighs 155 pounds and is 22 years old. This is his first year, though he is a junior.

Hooster Weighs 224 Pounds R. L. Dick Hall is the heaviest man on the team. He weighs 224 pounds and stands 6 feet 2 inches tall, a "low-

CECILIA HANSEN

and my mind can control everything. In other words, I won't recognize discouragements, and eventually they vanish."

er of defense" if there ever was one. Dick comes from Logansport, Ind., and played football at Butler before coming to Illinois. He was held back by illness but got into all the big games.

In Veteran Trio

Roy (Windy) Miller, guard, is the third member of Zupke's veteran center trio. He was sent into the game in the middle of the 1922 season, and immediately grabbed a regular berth. Miller is an Urbana product. His efforts in discouraging opposing fullbacks have reaped him some four broken noses, but the heavy mask which he now wears over the re-runs does not interfere with his playing. He weighs 195 pounds, stands 5 feet 11 inches and is 25 years old.

Crawford Versatile Walter (Muss) Crawford has fallen heir to the tackle berth left vacant by the injury of "Chuck" Brown. Crawford was an end on the freshman squad last year. This fall "Zup" made a fullback of him, but transformed him to a half in the Butler game, when he scored the first touchdown. He was sent in at tackle against Northwestern and made good. Crawford, who is 25 years old, served in the navy during the war, and held the heavy-weight title of the Pacific fleet during his enlistment. He is 5 feet 10 inches tall and weighs 180 pounds. He obtained his prep experience at Waukegan high school.

Slimmer is Fighting Louis Slimmer, guard, was out at the beginning of the season with an injury, but has returned and is making a strong bid for a berth at guard, disputing a berth with Roy Miller. He played last year with the scrubs. He is 21, comes from Millville, N. J.,

weighs 180 pounds and is 5 feet 8 inches tall.

The Substitutes

Fred Fisher is a utility lineman whom Zup has used at center and tackle as he was needed. He is an understudy to Big Dick Hall at present and played one half against Chicago. Fisher, who comes from St. Louis, is 20 years old, 5 feet 11 inches tall, and weighs 175 pounds.

Gil Roberts, another Oskaloosa, Ia., lad, divided the center duties last season with Green and is a likely substitute for that position now. He was tried at tackle against Northwestern, but has been returned to the pivot position. Roberts, who is 20, weighs 188 and is 5 feet 11 inches tall. Leonard Umrus earned a letter last year and is being used as sub center and guard this season. He is 5 feet 10 inches tall, weighs 192 pounds, and comes from Menominee, Mich.

Steve Coutch is sub quarter last year and is being held to replace Hall this season. He is a drop kicker and passer of considerable ability, beating Northwestern last year with a pair of kicks, one from the 52 yard line. Coutch is from Harvey. He weighs 160 pounds, is 5 feet 8 inches tall, and is 25 years old.

Emil (Helmer) Schultz, fullback last season and halfback this year, is one of "Zup's" best line plungers. He is from Geneseo, is 5 feet 9 inches tall, weighs 167 pounds and is 20 years old. Schultz has also been used at end.

Ralph Margolis, tackle, is a possibility in the line. He is a sophomore and the only man on the regulars who lives in Chicago. He went to Medill high. He weighs 175 pounds, stands 5 feet 7 inches tall, and is 23 years old.

John W. Hansen is Wilbur at home

Freeport-Forreston Road Nearly Ready

Freeport, Nov. 8.—Within a few days it is expected the pouring of concrete on the state highway between Freeport and a point one mile west of Forreston, will have been completed. The contractors who are doing the concrete work have been making every effort to complete the road as far south as Forreston, and present indications are their efforts will be successful.

There is still about 250 feet of road to be laid where the Chicago, Milwaukee and St. Paul railroad, two miles south of the city, passed over the state highway, and it is expected that it will be completed within the next few days. This will complete the cement road from Freeport to a point one mile west of Forreston, whence a hard gravel road leads into Forreston.

WANTS 'EM OUT

Eddie Collins of the Chicago White Sox wants out the pitcher to the count of three balls and two strikes more than any other player in either of the major leagues.

Budapest, Hungary, embraces the historic town of Ofen, once a Roman colony.

Saloons Near Govt. Home May Be Closed

Milwaukee, Wis., Nov. 8.—As a result of a fight started recently to close saloons near the soldiers' home here, seventy-five or more saloons in Milwaukee county may be permanently closed to liquor business. A court fight will result, according to the officers of the district attorney, with the decision yesterday of Judge Walter Schiats, in overruling the demurrer of Sophia Thekan to the state's petition declaring her saloon, situated at the southwest entrance to the soldiers' home, a public nuisance. An appeal is to be taken.

Tree Stump Blown Through Auto Top; Woman Fatally Hurt

Milwaukee, Wis., Nov. 8.—Mrs. Mary Toline, 26, formerly of Moline, Illinois, was fatally injured by a tree stump which crashed through the top of her automobile yesterday afternoon as she was driving through the National Soldiers' Home grounds. The accident occurred when workmen engaged in clearing land, set off a blast under a stump yesterday afternoon, blowing it into the air. The stump flew nearly intact high into the air and came down on the automobile. The machine left the drive and came to a stop against a tree. Men carried the woman to the hospital, where an operation was performed. Mrs. Toline was the wife of Dr. C. A. Toline, staff dentist at the home.

HURTS BATTING
Harry Hooper says that playing sun fields has a serious effect on a player's batting average. He insists that constantly looking into the glare of the sun cuts down his average at least 25 points every year.

Brewing industry in the United States has been traced back to 1620.

Plan Demonstration to Honor Ex-President

Washington, Nov. 8.—Friends of Woodrow Wilson are planning to make their Armistice Day tribute to him the greatest demonstration in his honor since he became ill. Not only will the former President's address on "The Significance of Armistice Day" be distributed by radio on Saturday evening, but delegations from several cities and representing a number of organizations are expected to take part in the pilgrimage to his home here Sunday. Facilities for broadcasting the Saturday evening address are believed by radio experts to be ample to make it accessible to all parts of the United States. Station WCAP in Washington will broadcast on a wave length of 469 meters and New York station WEAF which has a wave length of 487 meters, will also broadcast the address which is to start at 8:25 p. m., eastern time.

SPEED MERCHANTS
Frankie Frisch is the fastest runner in the National League. Maurice Archdeacon the fleetest man in the American.

Women first appeared on the stage in the latter half of the seventeenth century.

EXTRA SPECIAL

1-lb. RUBENDAL CREAMERY BUTTER	54c
3 lbs. ROYAL BLEND COFFEE, 35c grade, 3 lbs.	95c
5 LARGE AMBOY MILK	50c
1 lb. FRESH PEANUT BUTTER	25c

GIVE US A TRIAL

IT IS UP TO YOU Not to be Disappointed

We cannot urge you too strongly to place your orders for Christmas cards early, as in the past there have been entirely too many customers disappointed in making a late selection and not being able to secure the card desired or have it engraved in ample time.

You can appreciate that it is impossible for us to estimate the quantity that will be sold of the various numbers, and we cannot take the chance of running up large quantities of every number to avoid any shortage. We naturally try to arrange our stock so that we have as little stock on hand at the end of the season as possible.

Therefore, we urge you to solicit your orders immediately, so as to permit us to make re-runs on those numbers that's how the greatest sales. Toward the end of the season, this is impossible and customers will then have to be satisfied to make first, second and third choice.

GASTON MEANS IN TROUBLE AGAIN; HE SEEMS TO LIKE IT

Man Who Figured in Death of Morrison Woman Is in Toils.

BY ALEXANDER HERMAN, NEA Service Staff Writer.

New York.—Gaston B. Means is in trouble again.

But he likes it. For he has become a champion at it—charged in his time with murder, forgery, conspiracy and fraud.

Freed of all, he now faces another indictment. This time as the alleged principal in a gigantic bootlegging conspiracy.

But he merely shrugs his shoulders and laughs.

"Great fun this," he says. "I'm going to get a big kick out of it. For it's the thrill of such adventure that makes life worth living."

Ten years ago Means was a school teacher down in the Carolina Mountains. But the dull routine of school work palled on him.

"When I was a kid," he went on, "I always dreamed of the time when I would grow up to be a real detective. It was my boyhood ambition."

"When the chance came to give up my school work, I grabbed it. I wanted to go north and indulge in the fancy of my childhood dreams."

And he did. He soon gave up his job of being representative for some cotton mills, and became an investigator for a private detective agency.

Most of the time he worked for William J. Burns, now head of the United States Secret Service.

In 1914 he became a special agent for the German government. He received \$100 a day for his work.

"I worked for Captain Boy-Ed, German naval attaché," he says, "and got mixed up in innumerable messes. But it was all part of the game."

"When I foresaw that the Germans were forcing this country into the war, I quit their service and began working for our government."

Following a tip, I discovered that the Germans were making arrangements to get Huerta of Mexico into this country. I exposed the whole scheme, and Huerta was arrested as he tried to cross the border.

"I dug deeper into the intriguing of the German spy system and discovered the plots to blow up the Capitol at Ottawa and the Canadian Bridge. Both schemes were nipped before their execution. Van Horne the German spy, being caught red-handed as he was approaching the bridge."

Meanwhile Means had been acting as business advisor to Mrs. Maude A. King, of North Carolina, formerly of Morrison, Ill.

While out shooting one day, she was killed. Means, who was with her, was indicted for murder in the first degree.

It was a sensational trial. Colonel Thomas B. Felder, who has been kept busy getting Means out of trouble every time he got in, went from New York to North Carolina to defend him.

In a short time the jury acquitted him.

Then came a long line of new charges and indictments following the filing of a second will of Mrs. King's millionaire husband. Three million dollars were involved. Means and others would have benefited by it. Judge Jesse Baldwin of Illinois called it a forgery.

An appeal followed, and with it came a long drawn-out litigation brought to a close last month when the Supreme Court of Illinois ruled to throw out the second will.

When cleared of all charges growing out of the Mrs. King death and will contest, Means went back to his investigating work.

"Standing trial for murder is exciting enough," he says, "but it takes real sleuthing to give a real thrill."

He became a special agent for the Department of Justice investigating liquor cases.

"I unearthed the society bootlegging conspiracy," Means says, "which resulted in the imprisonment of the La Montagne brothers."

And he worked on many other important cases.

But trouble seems to follow him wherever he goes.

In a short time he was indicted in the gigantic bootlegging conspiracy. He is now out on \$15,000 bail awaiting trial.

But he isn't worrying.

"I've been able to get out of so much trouble before," he says confidently, "that I am sure I'll get out of this, too."

As is usually the case, I am not guilty.

"But I hate to have it interfere with my detective work, even for a short time."

He is now taking it easy, dividing his time between Colonel Felder's office and his home in Washington, D. C., where he sits down with his children and tells them, not fairly tales of idle creation, but real detective stories that make the youngsters' blood tingle.

ILLINOIS WONDER

Wonder what Jack Ryan, Wisconsin's new coach, is thinking about this week? He brings the undefeated Badgers to the Illinois stadium next Saturday for the last Big Ten game at Illinois. Dollars to doughnuts he ruminates on how to stop Harold Grange, who was a big factor in Illinois' victory over the powerful Chicago team last Saturday. Grange's hair is kind of dark brown but they are mean enough to call him "Red."

Here are all the touchdowns he has scored this year. Against Nebraska, three; Butler, two; Iowa, one; North western, three; Chicago, one.

The presence of Grange in every game so far has assured sensations for the spectators.

Every star of the past has been stopped some time. Wisconsin has a strong, rugged team, powerful on defense. It is up to the Cardinals to halt the sophomore marvel if they are to keep their slate clean.

The Illinois expect to be hosts to at least 30,000 fans. Given dry weather, this assemblage will be handled without any discomfort to visitors. Since the stadium seats 60,000 it will be an easy matter to book tickets even at the very last minute.

portant cases.

KNOW Thyself

HEALTH IN FASTING

The chief reason for many diseases is over eating. The old English maxim: "Rise from the table with an appetite and you will never sit down without one," is good logic and health advice as well.

Heavyweights frequently appeal for aid in removing non-working fat tissue. The best advice would be: eat less, fast more, drink plenty of water and let the highway for healthy blood.

Fasting is in reality one of the greatest medicines, or shall I say remedies, for the correction of digestive troubles, such as belching, sour stomach, liver trouble, diabetes and heartburn.

How, when and how long fasting shall continue depends on a number of conditions. One of these is climate, another is your own condition of strength, while a third is the kind of work you are engaged in and what your habits are.

If you live in a fairly hot climate, where evaporation from the skin is rapid, you must drink plenty of water along with your fasting and not have it continue more than two or three days. Persons who are naturally robust and "good feeders" can continue their ordinary occupations while fasting without any let-up in efficiency for a week or more. Those engaged in hard manual labor or vigorous outdoor work will find it to their advantage, while fasting, to be sure and get the full amount of rest required.

How to fast: abstain from eating for one day and see how it affects you.

Do your regular routine work. You might eat a very light breakfast, but no other food during the day. Drink five or six glasses of water. Fasting gives a rest to your digestive system. Fasting may be of two kinds:

complete abstinence, during a certain period, or eating a small amount of carefully selected food at regular intervals during your fasting period or as long as you desire. It is something to be carried out like exercise.

Do not expect yourself to be changed into a new person in one day of fasting. It may become a habit with you to fast, so to speak, all the time. In other words, to eat with great moderation and thereby increase your bodily health and longevity.

your muscles for growth and strength, you must use caution. Never severely tire or strain your muscles to the limit. When you feel the "pull" at the bulging part of a muscle you know it is growing—so to speak.

The muscle-fiber

STORY OF DECATUR LAKE SHOWS GREAT CIVIC ENTERPRISE

Artificial Reservoir Cost Citizens There Two Millions.

Decatur, Ill., Nov. 8.—(By the Associated Press).—How an inland city that has never had an adequate water supply placed itself on a lake 14 miles long, holding eight billion gallons of water, enough to last the city two years without rainfall in the Mississippi valley, and improved its recreational possibilities almost 100 per cent is told in the story of Lake Decatur, the \$2,000,000 artificial reservoir, which Decatur recently completed.

Decatur has worried about its water supply ever since the Civil war and two dams had been built before the present project was floated. Both of these had been outgrown and, with the city's industrial activities increasing rapidly, business men of the town realized that the Sangamon river did not provide a sufficient water supply, unless it could be impounded on a large scale.

The situation became acute several years ago when the river went dry and the project for the present dam was immediately launched. The city put in the dam, which is 1,900 feet long and the Decatur Water Supply company, a corporation formed by citizens offered one million dollars worth of preferred stock, paying a seven per cent dividend. The stock was oversubscribed in five days. This corporation bought 5,400 acres of land that was to be covered by the new water level, cleared this land, rebuilt bridges and roads and spent \$128,000 in riprapping the banks to protect them.

Fine Water Supply
When the dam was completed the city had an artificial lake 14 miles long, with an average width of one half mile and an average depth of 15 feet. This supply of water, city engineers figure, will be adequate for at least fifty years, taking care of both domestic and industrial growth.

The lake has become quite a summer resort and land values in the vicinity have risen several hundred per cent, according to W. M. Bering, one of the incorporators. Interest in swimming and boating has been greatly stimulated and three eight oared shells will make their appearance on the lake next spring.

The lake has been made a state fish and game preserve and last year as many as 10,000 wild ducks are reported to have been seen on the lake at one time. Fish have been planted in the lake from government hatcheries.

Under the contract for the project all of the property of the corporation will be deeded to the city when the stock has been retired. This will take sixteen years or less, according to the contract, and those in charge of the property now say that this will be accomplished without trouble.

Pretty? Yes, but "She's" a "He"

By NEA Service

Ann Arbor, Mich.—Julian Eltinge has a serious rival.

His newest competitor for female impersonation honors is Lionel Ames of Bay City, Mich.

Lionel, a Junior at the University of Michigan, plays the leading feminine role—the part of "Suzanne"—in the university's opera, "Cotton Stockings."

He will tour the east and middle west with the show during the Christmas vacation. The troupe is booked for a one-night stand at the Metropolitan opera house, New York, Dec. 13.

And to guard against any injury to his pretty arms and legs, either during rehearsals or while on the road, Ames has insured his limbs for \$25,000.

BET A DOLLAR YOU WILL SAY SHE IS PRETTY, WHEREIN YOU WILL BE ALL WRONG. YES, THE GOOD LOOKS ARE THERE, BUT "SHE" HAPPENS TO BE A "HE." LIONEL AMES, FEMININE IMPERSONATOR AT THE UNIVERSITY OF MICHIGAN.

This Little World

NEW YORK

BY CASUAL STROLLER

New York—Bunco artists here have a new way of making money. They do it by steering gullible visitors around town showing them, not the big sights, but the "big" people. For this little service they collect a fee ranging from \$1 to \$25.

The system was discovered by a policeman in the Wall Street district. He heard a nattily dressed man-about-town tell an elderly gentleman and daughter, whom he had in tow, that J. Pierpont Morgan was passing. With awe these out-of-town visitors gazed at the man.

But the cop knew he wasn't Morgan. He was just a neighborhood tradesman who spent his time running errands when he wasn't running his little shop.

So the policeman broke up the little game, took the guide to a police station and charged him with obtaining money under false pretences, for his customer had been paying him a dollar a throw for each little trip!

A "Treasure Island" has been discovered eight feet below the ground of lower Manhattan. Laborers excavating in caissons for the foundations of a new telephone building at West street and Park Place, about three-quarters of a mile above the Battery, uncovered nine rare coins dating to the eighteenth century, the hulk of an old ship, and a ram's skull with horns attached. The findings fortify the theory that the city's waterfront was once about where Washington street is now.

The recent World Series was played at the Yankee Stadium and the Polo Grounds up-town, but Times Square had a good deal to do with it, too. At the end of each game the second guessers and grandstand managers hid themselves there and played the whole game over again under the glare of the White Way. Some of them are still figuring out how McGraw could have won.

There was quite a crowd outside of an apartment house on 134th street the other night. It wasn't a murder or wife beating or anything. An Italian tenor in the third story had struck up an aria from Pagliacci, the windows were open, and a little knot of music-loving passersby quickly gathered on the outside. "Bis, bis!" and "Brava!" they cried when the aria was finished. It was really very fine singing.

Only the old crone leaning out of a second story window was unappreciative. "Whatd'ya want to give him any encouragement for?" she shrilled. "We gotta listen to it all day long."

The paradise of the alley cat in the big city has been found. It lies in the district near the Pennsylvania Station between Thirty-third and Thirty-fourth streets and Seventh and Eighth avenues. There where the traffic runs heavy through all the day stray felines roam to their heart's content at night. They seem to come from all over town to be the mascots and friends of the taxi drivers who share the night with them. When they get hungry they sneak into the innumerable lunch rooms in the neighborhood and make away with the scraps on the floor.

New expressions heard along upper Broadway near Columbia University: "Isn't that high?" Which, a collegiate flapper explained, means that a thing is a cross between being coy and doggy—if you understand what that means.

An enterprising embalmer on the east side is trying to put a little joy in his funeral services. He has mounted a small phonograph on the front seat of his hearse, rigged up a radio amplifier to magnify the strains, and furnishes the music free of charge. This innovation hasn't affected the death rate in the neighborhood yet, but it has brought increasing business to the undertaker.

Each morning a wealthy Westsider drives over to an "L" station, is helped out of his car by a fashionably liveried chauffeur, faultlessly attired in a perfect fitting uniform of maroon, with cap to match, and orders his man to drive home. Then he anxiously watches his car speed away before he mounts the stairs to his train. When he sees it take the corner safely, he goes on his way happy. The car? A driver.

DELAYED REPENTANCE

A Wisconsin man, attending a revival, was pressed to repent. He wavered for a time, but finally arose and said:

"Friends, I want to repent and tell how bad I have been, but I don't do it when the grand jury is in session."

"The Lord will forgive," shouted the revivalist.

"Yes, but He ain't on that grand jury."—Success.

INITIALED HATS

Initials are now seen even on hats. New Paris importations in millinery show them on the brims and crowns of the new tailcoats.

City Meat Market Dixon's Quality Shop OTHERS ARE STILL COMING AND GOING

but we are still at the same old stand. Our overhead expenses are so low that we can sell the best of Meats for what others charge for inferior grades.

Pork is cheap this week with the market still going lower and our special this Saturday will be our own home-dressed hogs, dressed in our modern slaughtering plant.

GRIDIRON FACTS

By Billy Evans.

QUESTION

What is the penalty if a player crawl with the ball after the referee has blown his whistle suspending play? R contends that no action is taken if a player so offends, the ball being put in play where it was when the whistle was blown. B contends that such action on the part of the player with the ball is classed as deception and viewed as a foul which calls for a penalty. Here is the play as it came up. On the first down with 10 yards to gain, the player with the ball gained about nine yards on the first play when the referee blew his whistle. Glancing over at the distance posts it was apparent that he lacked only a few feet of making first down. As the players on the opposition eased up because the whistle had been blown, the player with the ball crawled a distance which he hoped would escape the referee and make first down. The official saw the act. What is the ruling?

THE ANSWER

The rules specifically state there shall be no crawling by the player in possession of the ball. The penalty for such violation is the loss of five yards. In the play cited the team that gained nine yards on the first down should have five of these yards taken away because the player crawled with the ball after the referee blew his whistle. This would cut the gain to four yards and make it second down with six yards to gain.

To Stop Drinking at Football Games in Ga.

Atlanta, Ga., Nov. 8.—Drinking at football games in Georgia will be stopped according to Federal Prohibition Commissioner Dismuke, who has announced he will go to Athens on the day of the Georgia-Virginia game and direct the prohibition enforcement law there.

He said he had requested men to attend the game to aid in the enforcement and watch for the promiscuous drinking. Hip pocket flasks are becoming a regular part of football equipment for spectators. Mr. Dismuke said, adding that the drinking seemed to be less among the students than among the alumni and others.

FLOWER DESIGN

Heavy silver flowers are embroidered on a chemise frock of cerise crepe, that ties in a large flat bow over the left hip.

CHRISTMAS CARDS.
B. F. SHAW PRINTING CO.,
DIXON, ILL.

Why They Parted

"I was down with pain in my right side which at times almost crazed me. Most all of the doctors said operation, but what I want to tell you is the pain disappeared with the first dose of your medicine and I never see any since. May's Wonderful Remedy has the right name—gas, sour stomach and dyspepsia have left, too." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at all druggists—Adv.

GOVERNOR SMALL REVIEWS ROAD BUILDING PROGRAM BEFORE BIG AUDIENCE IN TAMPCO YESTERDAY

(Continued from Page 1.)

Education, also spoke in glowing terms of Governor Small's administration.

The tone of remarks at the luncheon and the afternoon meeting was that Governor Small was accomplishing more good for Illinois than any preceding administration, and that he would be returned to the executive chair.

Gov. Small's Address

Governor Small was the last speaker on the program. His speech, which is published in full herewith, was as follows:

I would like to talk with you today regarding our State government and what has been and is being accomplished by this administration, and I want to first take up what I consider the most important State issue before the people of Illinois. I am sure that you are all vitally interested in Illinois' road building program.

Some of you remember during the campaign for my nomination and election, I told you I was in favor of pushing to a rapid completion of the road building program for the \$60,000,000 bond issue, which had been approved by a vote of the people in November, 1918.

I told you I would not look for excuses for not building roads, but that I would find a way to build them and that we would extend the hard road system fairly and impartially to every part of the State. I want to say to you, my friends, that I have KEPT MY PROMISE and that we have found a way to build the roads in spite of the combinations, trusts and professions that are trying to stop our progress and I am glad to be able to say that in every county in Illinois we have built hard roads or now have contracts for either pavement or grading on the bond issue system.

First Bids

You remember that two years ago last February when we opened the first bids for roads the low bid was more than \$20,000 a mile for an 18-foot 7-inch cement road. Had we let the building of the entire 4,800 miles provided for at those prices, the total cost to the State would have been \$96,000,000 or over three times the amount of the \$60,000,000 bond issue.

Bids Rejected

At that time the market price of corn was below 40 cents a bushel and I did not believe that we should exchange over 100,000 bushels of corn for one mile of cement road. We rejected those bids and we have known since that this administration would not pay over \$30,000 a mile for paving. Of course, this rule could not apply where there is very deep filling or unusually extensive grading or large bridges. Bridges and extra heavy grading have always been let separately. When I rejected those bids, the then superintendent of highways and many of the contractors told me that I had ruined my administration; that the contractors would scatter and go into other states where they could get higher prices.

We started three complete road outfits of our own, hired men by the month or by the day and in 30 days we had proved that we could build roads at \$38,000 a mile and in five months we were able to let contracts within the limit of \$30,000 a mile on the same roads.

Bond Issue Insufficient

Every one realizes that even at \$25,000 to \$30,000 a mile it will be impossible to build all of the 4,800 mile system with the funds now provided. I believed that the people of Illinois wanted the roads and that with the reduced prices we were justified in going ahead and building as many miles as we could with the funds available. You know something about the results. It was hard to bring the prices down. The interests which believed they could continue to reap large profits, represented by Chicago newspapers, tried to force us to proceed at the high prices. In many places, by misrepresentation, they induced Automobile Associations, Chambers of Commerce and other organizations urging us to build roads at once regardless of cost.

I am glad to be able to say to you that since that time, two years ago, notwithstanding every obstacle which the profiteers have thrown in my path in trying to hamper and prevent me from performing the duties of the office to which you elected me, we have built over 1800 miles of paved roads in Illinois, which is more than has been built in any other state in this union in the past two years, and not a mile of that pavement has cost the State over \$20,000. Some of it has been as low as \$23,000; the average has been about \$27,000, which is much lower than has been paid for like roads in any other state.

We hope by the first of December next year to have completed 1300 miles more, making a total of 3700 miles on the bond issue system, or all of the original bond system except about 1000 miles. At that time all the \$60,000,000 bond issue and automobile license fees will have been expended. And unless the proposed bond issue of \$20,000,000 is passed, or other arrangements are made, hard road building in Illinois by the State will practically cease.

New Bond Issue

Realizing this condition and believing that the people of Illinois want more roads and want them now, or as soon as they can reasonably be built, I recommended to the last legislature and they passed the bill providing for an additional bond issue of \$100,000,000 to be paid, principal and interest out of the automobile license fees without any increase in property tax. This additional bond issue to be used to complete the present system of 4800 miles of road and about 5200 miles additional, making a system of 10,000 miles, as provided in the new map.

The bond issue for these additional roads will be submitted to the people in November, 1924, and to be effective must receive a majority of all votes cast at that election.

I want to say to you, my friends, that the plan of paying for the paved roads with the automobile license fees is the fairest and best plan ever devised for building roads and it is the greatest opportunity, and in my opinion, the last opportunity, the people of the State of Illinois will ever have to get the roads, because already plans have been made by those opposed to this system to divert the automobile license fees from the building of hard roads out in the country, and some of them are in favor of retaining the license fees in the counties from which they are collected, as was attempted and advocated by the Chicago Tribune and by bills introduced in the last Legislature by Senator Buck and Representative Tice.

It is true that the city of Chicago pays over one-third of the entire amount of license fees, and other cities probably another third, and yet

all of these roads under this law are being built in the country outside of the city of Chicago and other large cities. This is fair because the owners of automobiles and trucks are the users of the roads and the people of Chicago will not only be benefited by using the roads, but the roads will reduce the cost of transportation and in that way, reduce the cost of living.

And, if the people of this state do not take advantage of the opportunity now given them to build a wonderful system of durable, hard-surfaced roads, the opportunity may never again be offered because other uses will be made of the license fees.

The enemies of our plan are trying to deceive the people through the columns of the Chicago Daily News and the Chicago Tribune. They are trying to make the people believe that they will have to pay for these roads by direct taxes, which they know to be false, as these figures will prove. And automobile license fees in Illinois are lower than in most other states; our average is \$10.10 per car; the average of the United States is \$11.70 per car; and whether or not we use these fees to build this great system of hard roads, we will have to pay our license fees just the same.

In 1911, when the first automobile license fees were collected, there were only 38,000 automobiles and the State collected \$105,000 in fees. In 1917, when the legislature passed the \$60,000,000 bond issue law, there were 340,000 automobiles and the receipts were \$1,500,000. That amount has been increased on an average of 60 per cent a year. Last year our license fees were a little less than \$3,000,000 and this year we have already collected over \$3,000,000, the amount collected to September 24, being \$2,464,250, an increase of over one and a half million this year over last year.

If we adopt the \$100,000,000 bond issue, I believe that in 1924, we will take in \$3,000,000; in 1925, we will take in \$3,000,000; in 1926, we will take in \$3,000,000; in 1927, we will take in \$3,000,000; in 1928, we will take in \$3,000,000; in 1929, we will take in \$3,000,000. In other words, during the next 20 years the State of Illinois will receive in license fees over \$300,000,000; in 30 years, \$450,000,000.

Why the license fees have increased since 1911, 7480 per cent. Is it not reasonable to expect at least 100 per cent more in years to come?

Unless you wish your license fee to be every dollar of the automobile fees collected will be brought out into the State to build and maintain hard-surfaced roads from town to town and throughout the State, because our automobile bond issue roads will not cost you a cent. If you do own an automobile the saving in gasoline alone will more than pay the license fee. The law further provides that the road fund shall, when the State of Illinois shall incur any bonded indebtedness for the purpose of building or improving highways, be set aside and used for the purpose of paying and discharging annually principal and interest on such bonded indebtedness until due shall have been paid for the improvement of the highways of the State.

Tribune: "Regardless of Cost"

The Chicago Tribune said two years ago last February when we rejected the \$30,000 a mile bids, that it was the Governor's duty to accept those bids and build roads because he had promised to build them and that he should build them now regardless of cost.

Last winter, when we wanted to pass the bond issue through the Legislature, they demanded that it be defeated and divert the money received from license fees to other purposes. Why build roads now, they may be cheaper after awhile.

The questions, my friends, on which you and I will be asked to vote at the next general election is:

Do we want more hard roads?

Do we want them now?

Do we want them built at a reasonable price?

Do we want them paid for by a bond issue, every dollar of which will be paid by license fees, without any additional direct property tax?

It is a little amusing when we stop to think that these great interests, which are ever trying to rob the people, and especially the farmers of Illinois, of the splendid paved roads, are trying to secure us into thinking that these roads will force us into bankruptcy, and they talk as if a \$60,000,000 and a \$100,000,000 bond issue were a terrible large amount for the State of Illinois to pay.

My friends, the entire \$60,000,000 bond issue, the proposed \$100,000,000 bond issue, principal and interest, every dollar can be paid by the automobile license fees in the next thirty years and leave a balance of several million dollars a year to maintain and care for our great road system. In fact, \$5,000,000 a year will pay off both issues in thirty years from the time the last bond issue roads are built.

Talk about bankruptcy and high taxes. Do you know that Illinois' share of the taxes which we pay to the Federal Government is over \$300,000,000 and that every year, which is twice as much as the entire bond issue of \$60,000,000 and the \$100,000,000 combined.

Why Illinois' share of the interest on the national debt is over \$3,000,000 a year, while the people of Illinois a right to spend for hard roads, which properly cared for and maintained will last many years, half as much money for their own convenience, for their business and their own pleasure, as they are paying every year to the Federal Government in war taxes?

When I became Governor in 1921, 700 miles of paved State roads had been completed and paid for largely by automobile license fees. Federal appropriations and \$5,000,000 borrowed from counties.

We have paid back a large part of the amount which the counties have advanced. At that time, as I have said before, contractors were asked \$40,000 a mile. They were taking contracts from 5 to 6 miles for a year's work, and at the end of the season it they had completed 5 or 6 miles, they were satisfied and considered that they had done a good season's work.

Now by their increased efficiency and improved machinery, the improved system of the competition, contractors are taking 10, 12, 15 and in some cases even 18 miles, and one contractor has already finished over 13

SUES WITH DOUG

Evelyn Brent, former leading lady for Douglas Fairbanks, has joined Doug and his wife, Mary Pickford, in the fight against the magazine. The publication, their petition contends, asserted Miss Brent had

caused a rift in the Fairbanks' marital life. This, all three deny. And Doug and his wife, Mary Pickford, said Miss Brent was fired by "Doug" because she was "growing fat."

miles of pavement this year, with one

I wonder how many of you have visited one of our great road building outfits and watched that big mixer perform its work. Road building has been reduced to a science. Do you know that today located in the 102 counties in this State we have 106 of those great mixers and complete outfits of road building machinery working, which will average every day that the sun shines and the ground is dry enough for them to work from 500 to 800 feet of concrete each making 10 miles of road a day, the greater hard-surfaced roads made by any state or in any other country on the face of this earth.

Our opponents say "Why build roads now?" I will answer that. Build them now that we may enjoy them while we live and distribute the cost over a period of years so those who use them and enjoy them may help pay the cost. Build them now that we may take advantage of this splendid organization—the Illinois Division of Highways—and the wonderful organization of road builders which it has taken years to bring together and train and educate to their present high state of efficiency.

Why build roads now? Because you are getting your money's worth. We are carrying out the principle of a dollar in value for every dollar of the people's money spent. The Illinois road system today is no longer an experiment. Civilized countries from all over the world send their engineers to Illinois to see how we are building roads.

Those great interests which are trying to defeat this the greatest constructive enterprise ever undertaken, have tried to prejudice the farmer by telling him that he should have country roads from farm to farm instead of those great slabs of pavement, from city to city.

Why, my friends, every farmer in this audience knows that if he wants to transport his farm products to market he must first and then he will connect the laterals afterwards. These proposed 10,000 miles of roads are the mains and they will be connected later by the laterals from the different farms.

I understand that under the \$60,000,000 bond issue Whiteside County will have about 35 miles of road, and under the new bond issue 80 additional miles of road are proposed, making a total of 115 miles of paved roads. Let me ask you, WICH IS THE GREATER NECESSITY? Food to sustain human life, or public utilities which give us greater comforts?

Our Federal Government guarantees to the great public utility corporations a fair rate of interest on their investments and a reasonable rate in the way of dividends, regardless of the expense or wastefulness of their management. This guarantee is made, as I understand it, on the theory that the public utilities are a public necessity. Let me ask you, WICH IS THE GREATER NECESSITY? value for every dollar of their money spent.

I recommended in messages to the legislature, laws which would curtail the great profiteers, and laws which would give the people of every community the right of Home Rule in the management and control of their public utilities.

I urged the General Assembly to amend the revenue laws in such a way as to provide a more fair distribution of the burdens of taxation, and especially to compel the hidden wealth to bear its share of the expense of our government.

I am advised that in the great city of Chicago millions and millions, yes, even billions of dollars in stocks and bonds are locked in the safety boxes and are never taxed but the little homes and the farms owned by the people of moderate means are in plain sight and are never overlooked by the assessor.

I have done everything within my power to keep my campaign promises and give the people the best service possible. I believed and still believe that appropriations should be held down as nearly as possible to the real needs of our State government.

During the last two sessions of the legislature Attorney General Brundage asked for over \$3,000,000 in appropriations to run his office for four years. This amount was as much as the Attorney General of over half the states in this Union combined received to run their respective offices for the same length of time.

For the People

The legislature refused part of his demands. I went over the appropriations carefully and vetoed over \$7,000,000; and in doing so, reduced the Attorney General's appropriation to about \$1,300,000 for the four years, which still left him more than the Attorneys General of the four states of Pennsylvania, Ohio, Indiana and Wisconsin combined. The state of Iowa appropriated only \$250,000 for the Attorney General's office in that state for four years, and yet the Attorney General of Illinois brazenly demands over \$3,000,000 and threatens to destroy any man who would stop his extravagant waste.

He did not want this enormous sum of money to spend in the interest of the people, but wanted to spend it, as he has been spending appropriations in the past, to appoint men over the State with no regard to what he had to do to help him build up a personal political machine. He used appropriations of state funds to hire 15 lawyers and dozens of detectives, crooks and spies to develop the time and persecution of your Governor in an effort to prevent me from keeping my promises to the people and performing my duties as Governor of this state as you wanted me to perform them.

I am new and still know that I am innocent of every charge he has made. After a trial lasting for months in the Lake county Waukegan court room a jury found me "Not Guilty." Unless you own a car, you know that the records show that there were 39,999 less deaths in Illinois during 1921 and 1922 than in the preceding two years. But I realize that I must not take the time to go over all of these departments, because there are nearly 100 departments and division in our State government.

They tell us there is great prosperity in our country; that there is a greater circulation of money than ever before, and that practically every branch and every line of industry and business, excepting farming, is very prosperous.

Farm Industry Needs Aid

I know the problems which are confronting the farmers, because I am still running my farm at my home in Kansas. Based on present crop prices, it is impossible for us to make ends meet. Something is wrong.

HAT IT TAKES TO PRODUCE POUND OF MEAT

Washington—The quantity of food to produce a pound of meat has been the subject of study of experts in the Department of Agriculture. They find it takes about six pounds of grain and six pounds of hay to produce a pound of lamb (live weight) 10 pounds of hay and 10 pounds of corn make a pound of beef, and 5.6 pounds of corn to produce a pound of pork.

"THE FOOL"

BY CHANNING POLLOCK

ILLUSTRATED BY A. W. SAWYER

BEGIN HERE TODAY

Clare Jewett, in love with the Reverend Daniel Gilchrist, marries Jerry Goodkind for his money. Daniel is disgraced from the fashionable church of the Nativity in New York because of his radical sermons.

"Overcoat Hall," a refuge for the unemployed, is established by Gilchrist, and apartments with baths for the poor are maintained. George Goodkind, Jerry's father, calls and orders Daniel to come seeing Clara, who frequently visits the hall to help Gilchrist.

Mary Margaret, a poor little cripple girl, helps Daniel with the work at "Overcoat Hall." She likes to hear Daniel tell the story of Cinderella.

NOW GO ON WITH THE STORY

"That's the very time to go on," he answered earnestly. "If we stop just because it doesn't work, that isn't faith."

"No, I suppose not," she said. "And faith moves mountains," he continued. He paused a moment, looking at her benevolently. "Once upon a time," he said simply, "there was a woman who'd been sick 12 years."

"What was the matter with her?" queried the girl, interested.

"I don't know. But there was a Man in that city who said He could even make the dead rise. And everybody laughed at Him—said they would laugh. But the woman didn't laugh, and one morning, when He was passing her house she got up and followed Him—just to touch the hem of His cloak. And what do you think?"

"I dunno," the girl said eagerly, leaning forward.

"She was cured," said Daniel. "And a Man said—"

"I know," she interrupted. "Thy faith has made thee whole."

"That's right," she smiled. "Could God do that for me?" she asked seriously.

"Yes," he said with conviction. "It would be an awful big favor."

"But if He doesn't," Gilchrist put in, "you must go on. If faith doesn't heal our hurts, it helps us to bear them. And that's almost the same thing, isn't it?"

"Yes," she said, but with a trace of disturbing doubt.

"Like believing you're Cinderella," he added.

"Yes," this time she smiled a bit.

"We can't decide what we want and then be angry and doubtful because it doesn't happen our way," he continued. "Because all the time it's happening His way. The only thing we can be sure of is that He knows what's best."

"That's right," she nodded. "You mean, if God wants me to be well, some day He'll make me well?"

"If you believe hard enough," he stressed.

"And if He doesn't?"

"Then that's right—if you believe hard enough," he answered.

The girl paused a moment reflectively. She said she didn't forget her twisted legs easily. They were real. Every step she took upon the substitute crutches was a reminder of them. But she was eager to believe what this man told her. She didn't understand why—Doubt and resentment were rising now and she put them down with inner resolution.

"I will, Mr. Gilchrist," she said determinedly. She rose and reached for her crutches. Then she looked down at the dishes in front of him.

"You ain't touched your supper," she said with concern.

"I've had plenty," he replied, getting up slowly with the satisfaction of one who had had "meat to eat that ye know not of."

"I'll send Grubby up for the tray," she said as she left.

Gilchrist walked to the window, looked out a moment and then started to draw the shade.

The door swung open hurriedly

ENDING PROFESSIONALISM

Chicago, Nov. 8.—(By The Associated Press)—The Western Conference is rapidly uprooting professionalism from among its athletes by strict enforcement of rules. Major John L. Griffith, conference commissioner of athletes, said in a statement today. His pronouncement followed the findings by the University Athletic Council that B. C. Gerber, star tackle, violated a Big Ten rule.

Commissioner Griffith declared that "in the last 15 months the conference directors have disqualified 30 or 40 men for violating the professional rule. In that time the names of 3,000 varsity and freshmen varsity athletes have been in file in the different universities."

"It is to be questioned," he said, "whether any other group of athletes has disqualified such a large percentage of its athletes for professionalism. This does not mean that more men in this section are professional than in any other sections, and in fact most

of these men were disqualified for minor infractions of the rule, but it means that the directors are enforcing the rules."

To Enlist H. S. Principals

High school principals are to be brought into the conference fight against the professional athlete, he added. Likewise high school principals are being enlisted to ferret out rule violations by schools, alumni or coaches who offer inducements to a high school star to attend a conference university.

College athletics is above any suspicion of dishonesty he said, adding that "every other sport with the exception of amateur, has at some time or other, been viewed with suspicion. College athletics is one branch that has never been corrupted. Those in control of the athletics in the conference believe that it worth while trying to

keep athletics above suspicion."

Letting in college sports, he asserted, has been reduced to a small minimum in the Big Ten.

"The colleges of the Western Conference are conducting their athletics openly and have nothing to conceal," he concluded.

and drive you out." She looked hysterically. "They're dangerous. Mr. Gilchrist. For God's sake, believe me! For God's sake, telephone the police!"

"There's no telephone here," Pearl, he said evasively. "But there's always an officer on hand, and I'm among friends. Don't worry. Sit down and wait for the meeting. I haven't seen you in ages."

She did not heed his invitation, but continued to pace the floor nervously.

"Two weeks," she corrected. "What are you doing?"

"I'm working at Baylin's department store," she said, uneasily. "Like 127?"

"Better than being with Joe," there was defiance in her answer. "If you'd stayed with Joe," he said, with just the shadow of reproach, "maybe he wouldn't be drinking."

"He always did," she flashed back. "That's why I asked you to stick around in Black River. That's one reason I quit."

"One reason?" he looked at her inquiringly.

"There was another," she admitted, a bit grudgingly. "I wanted good clothes and a good time—just like other women."

"Yes," he said, seriously, looking back into his own heart—"like other women."

Pearl straightened up with an air of pride.

"And I've got 'em," she declared, waving boastfully at her costume. "Yes, you've got them," said Gilchrist gravely. "But don't you think—sometimes—you and the other women—that they cost too much?"

"I don't get you," she looked at him quizzically.

"I only mean," he started, "isn't there something worth more than good clothes and a good time?" He wasn't sure she understood. And neither was she. "A good home," he went on, "with love in it—and little children."

Pearl hesitated a moment, pulling nervously at a glove. Then she turned her back on the question. As had been her custom when she faced unpleasant things, she ran from it. She hurried to the window and with a cat-like approach drew the shade aside just a trifle.

"We hadn't ought to be here talking," she flung back over her shoulder as she peeped out the narrow slit. She was trying to establish some basis for her flight from his question.

"Why not?" he asked blandly. "I'm frightened of Joe," she said. "You needn't be," he reassured again.

She came back now, relieved that she had turned the conversation. "I am," she said, still nervous. "I can't help it. I got a hunch. I ain't told you all this man said and I ain't told you how he come to say it, but he said it was gonna be soon, and I got a hunch somethin' gonna happen tonight. Please let me go out and phone. Please let me shake his head smilingly. Then she straightened. "You're crazy, Mr. Gilchrist," she exclaimed excitedly. "You're just crazy! And I'm goin'!" She hurried toward the door. It opened before she reached it and Clara Goodkind entered. She was smartly gowned, but somehow she gave the impression of being dejected, of having dressed in haste.

"Clara—Mrs. Goodkind," said Gilchrist in surprise. He paused and looked at Pearl. "Mrs. Hennig's just going."

"Mrs. Hennig?" Clara looked with tired eyes and turned to the uneasy girl in front of her.

"Pearl Hennig," Gilchrist exclaimed. "You've heard your husband mention her name."

"Pearl had been searching for something to say. The mention of Jerry offered an opportunity.

"I know your husband," she said simply.

Farmers' Plight is Result of Economic Conditions Entirely

Chicago, Nov. 8.—(By The Associated Press)—Declaring that the farmers' plight is the result of economic conditions, and is not due to lack of efficiency on the part of the farmer, E. W. Lehmann, Professor of Farm Mechanics at the University of Illinois and President of the American Society of Agricultural Engineers, urged members of the society to turn their efforts towards methods of processing and manufacturing which will enable the farmer to store his farm products and put them on the market in an orderly manner, in an address to the society here today.

He also urged that the problem of soil erosion be given careful scrutiny; that the work of farm power analysis be pushed and that more attention be given to the structure and convenience of the farm home.

Professor Lehmann told the society that he believed the efforts of the organization could be concentrated to the good advantage and stressed the importance of drawing teachers of vocational agriculture into the membership of the society. He told the society that there was great need for a handbook of agricultural engineering and urged that all material extant on the subject be collected into such a book.

In regard to the efficiency of the farmer, he said:

"The farmer, when compared with the industrial worker, may not be rated very high in efficiency, but when compared with the farmers of other countries he is the most efficient farmer in the world."

"We would like to praise our engineers and manufacturers for the good work they have done, but we can find folks with good arguments who would condemn them for making the farmer too efficient as a producer."

"It is my belief that the work of the engineer will be a big factor in helping the farmer out of his present difficulties. I had the privilege of attending a farm marketing conference recently. An important fact that was emphasized was the fact that the

farmer must take care of his own surplus. To do this it is necessary that the products be either stored or made non-perishable by some manufacturing process so that they can be put on the market in an orderly fashion. There is no question in my mind, but that the stability of the dairy business as compared with other foreign enterprises is due in a large measure to the modern methods of handling all surplus milk."

Schwab's Misfortunes Came from Kindness

New York, Nov. 8.—It was to prevent publicity on matters on which the public is apt to put the wrong conviction," that Charles M. Schwab lent money over a period of twenty years to Mrs. Myrtle M. Hayes, he testified yesterday at a hearing held to determine his liability for payment of notes to which Mrs. Hayes is charged with forging his name.

Revelation of the loans came several months ago when a hotel project at Brookline, Mass., in which Mrs. Hayes was interested, collapsed because Mr. Schwab would not honor the notes. The hearing was part of the legal action William G. Tobey, builder of the hotel instigated to recover money he lost.

"Nearly all my misfortunes in life have come from acts of kindness to others," Mr. Schwab declared.

Lombard Freshman is Injured in Explosion

Galesburg, Ill., Nov. 8.—Robert Jordan of Chenoa, Ill., a freshman at Lombard College, had his hands badly mutilated and burned in an explosion in the chemistry laboratory at the school yesterday afternoon. College authorities stated today that Jordan is not a student in the chemistry department and that he mixed the explosive as a private experiment while the instructors were at chapel. The laboratory was badly damaged by the force of the blast.

farmer must take care of his own surplus. To do this it is necessary that the products be either stored or made non-perishable by some manufacturing process so that they can be put on the market in an orderly fashion. There is no question in my mind, but that the stability of the dairy business as compared with other foreign enterprises is due in a large measure to the modern methods of handling all surplus milk."

Schwab's Misfortunes Came from Kindness

New York, Nov. 8.—It was to prevent publicity on matters on which the public is apt to put the wrong conviction," that Charles M. Schwab lent money over a period of twenty years to Mrs. Myrtle M. Hayes, he testified yesterday at a hearing held to determine his liability for payment of notes to which Mrs. Hayes is charged with forging his name.

The High School is quite proud of the beautiful silver cup presented by Dr. C. G. Pool to the winners of the Junior High School Track Meet. The cup is suitably engraved and is a trophy to be coveted.

Miss Leota Archer and Donald Cole who are attending high school at Aurora were home over the week end.

John Myrtle was here from Rockford for a brief visit the last of the week.

Mrs. Mary Runchey who has been visiting relatives in Rockford returned here the last of the week and will continue her visit at the home of her brother, Charles Holdren for a few weeks.

Miss Caroline Miller spent a few days the past week at the home of Mr. and Mrs. William Webber in Rochelle.

Mr. and Mrs. Charles Holdren were LaSalle visitors Thursday.

Mr. and Mrs. S. O. Arrighes are spending a few days this week at the home of their son Wendell in Decatur.

William Carnahan and Dr. Fleming were entertained at a 6 o'clock dinner Monday evening at the home of Mr. and Mrs. John Tribbitts.

Mrs. Thompson and Miss Foley entertained the girls' choir with a Halloween party Friday evening at the home of Mrs. Cynthia Cook. The home was attractively decorated in true Halloween spirit. Games, fortune telling and various stunts were indulged in throughout the evening. Tasty refreshments were served and the party ended with the singing of songs by the choir of 18 voices. Everyone present report having had a glorious time.

The primary class of the M. E. church enjoyed a Halloween party Saturday afternoon at the home of their teacher, Miss Hazel Montavon. There were 14 present and all had a jolly good time playing various kinds of Halloween games after which an appetizing lunch was served.—E. L. M.

LOVE CAN'T LIVE ON UKELELES

Honolulu—One divorce for every 4.49 marriages was the new high record established in the territory of Hawaii during 1922, according to figures compiled by the bureau of vital statistics and the territorial supreme court.

The number of marriages performed during the year was 2,493, and the total divorces granted were 555. In addition to these twelve applicants were refused divorces.

GOES TO NASSAU

Joe Johnson, famous golf professional, who was slated to take charge of one of the new golf courses at Miami, Fla., has shifted his plans. Instead Joe has been
